

19TH YEAR. NO. 185.

EAST LIVERPOOL, O., THURSDAY, AUGUST 7, 1902.

TWO CENTS.

HANNA COMES TO THIS COUNTY

The Senator Booked For a Campaign Speech at Lisbon This Fall.

VISIT TO HIS BIRTHPLACE

Will Be the First He Has Made in a Dozen Years or More.

COLUMBIANA COAL OUTPUT.

From a Staff Correspondent.

Columbus, Aug. 7.—During the coming fall campaign United States Senator Marcus A. Hanna will, for the first time in his career in public life, make a stump speech in Columbiana county. While in Cleveland last week Senator Charles C. Connell met and had a long talk with the senator, during which he exacted a promise from the latter to deliver an address in Lisbon some time during the campaign. The senator said that nothing would give him greater pleasure and declared he had a warm spot in his heart for Columbiana county and especially for Lisbon, and there are excellent reasons for assuming that he was telling the truth, for it was at the latter place that he first saw the light of day. He has not visited his birth place for a dozen or more years and he stated he would contemplate with pleasureable anticipation his return to that thriving little community. He suggested that the senator go through the formality of making requisition to the board of speakers of the Republican state committee for his services which will be at this body's command. Senator Connell will do this at once, and expects no trouble in getting Senator Hanna assigned for a date in Lisbon. Chairman Charles Dick and Senator Nicholas Longworth, of Cincinnati, who is one of the drafters of the code, will also be invited to attend and speak with Hanna.

FOR DOUBLE TRACK ON C. & P. TO WELLSVILLE.

Work Will Start Shortly on the Extra Track in This City.

The survey for the double track between Ralston crossing on the C. & P. and Wellsville, has been completed. The work of laying the track will begin shortly. The new improvement is one of the matters projected for the handling of traffic not only in East Liverpool, but in Wellsville.

It is not yet determined whether shifting crew will be placed in the city, though the present crew is working 15 to 18 hours per day.

DISCHARGING FIREARMS

The Charge on Which Dan Densmore Was Called Before the Mayor.

For violating section 19 of the city ordinance book Dan Densmore was arraigned before the mayor this afternoon. He was arrested at 11 o'clock last night on suspicion of discharging a revolver.

The officer states that Densmore, in company with three unknown fellows, were on Sheridan avenue when he heard a pistol shot. Running immediately to where the men were standing, he accused them, but they all denied having fired the shot and asked to be searched. The officer was about to believe that he was mistaken when he saw a gun lying at the feet of Densmore. Densmore pleaded not guilty, before the mayor, and will have a hearing Monday.

MARRIED IN LISBON

Picnickers Drove From Rock Springs to Be Made One.

Lisbon, May 7.—(Special)—Huber H. Helmick and Jeannette L. Moore, both of Canton, were married in the probate court room yesterday afternoon by Rev. A. W. Lytle. The happy couple were attending the Lutheran reunion at Rock Springs park and drove to Lisbon from East Liverpool. As the bride was not a resident of the county they could not secure a license as expected, but Judge Boone called Judge Aungst of Canton, and secured one for them. After the marriage they drove back to Rock Springs. They had not informed any one of their intentions and sprung quite a surprise on their friends.

SUED FOR TAXES

Treasurer Smith Alleges That a Gas Company Owes \$2,774.

Lisbon, May 7.—(Special)—Charles E. Smith, as treasurer, has entered suit in common pleas court against the Bridgewater Gas company, of East Liverpool, claiming that the company owes the county \$2,774.50 for taxes on personal property.

The annual report of State Mine Inspector J. E. Biddison, filed with Governor Nash Wednesday afternoon, shows that 20,321,290 tons of coal were mined in Ohio in 1901. The output of iron ore product was 41,325 and that of fire clay 1,337,181 tons. The production of coal in Stark, Columbiana and Mahoning counties during the year was as follows: Stark, lump, 792,555; nut, 161,780; pea and slack, 154,758; total, 1,049,093; loss compared with year 1900, 161,139. Columbiana, lump, 510,068; nut, 124,759; pea and slack, 157,676; total, 792,555; gain over year 1900, 74,425. Mahoning, lump, 39,245; pea and slack, 7,995; total, 52,755; loss compared with year 1900, 56,582.

In Columbiana 315,443 tons of coal were mined by machines, while but 38,141 tons were mined by this method in Stark. There are no machines in use in Mahoning. There are 78 mines in Stark, 50 in Columbiana and 32 in Mahoning. The number employed in these mines are as follows: Stark, miners, 2,359; day hands, 267. Columbiana, miners, 1,071; day hands, 336. Mahoning, miners, 213; day hands, 69. In Stark during the year 16 new mines were opened, six were suspended and

eight abandoned. Four were opened, five suspended and five abandoned in Columbiana. Two were suspended and one abandoned in Mahoning. In point of production, Stark was ninth, Columbiana tenth and Mahoning 22nd. There were 48 accidents in Stark, 20 in Columbiana and one in Mahoning. Three of the accidents in each of the first two counties were fatal. The deputy mine inspector made 171 official visits to Stark, 114 to Columbiana and 23 to Mahoning. There are 30 coal producing counties. Seventy-two persons were killed, one to every 282,240 tons of coal mined.

SURVEY FINISHED

FOR DOUBLE TRACK ON C. & P. TO WELLSVILLE.

Work Will Start Shortly on the Extra Track in This City.

MISS LETITIA STEVENSON, REPORTED FIANCÉE OF CAPTAIN HOBOSON OF MERRIMAC FAME.

According to rumor, Captain Richmond Pearson Hobson, hero of the sinking of the Merrimac in the channel of Santiago harbor, has unconditionally surrendered to that sly little strategist, Cupid. Miss Letitia Stevenson, youngest daughter of ex-Vice President Stevenson, is the lady who is said to have been selected as a life partner by the gallant captain. Miss Stevenson is 24 years of age, while Captain Hobson is 32.

A FIERCE FIRE IN SALEM STORE CO-OPERATION MUCH DISCUSSED

Caused by an Explosion and Threatens Great Damage in Heart of the City.

THE LICHTING OF A MATCH AN OUTLINE IS SET FORTH

Started a Blaze Which Ran Like Lightning, Dooming the Building. More Explosions Feared And Neighboring Buildings in Danger.

Salem, Aug. 7.—2:45 p. m.—(Special)—An explosion set fire to the large two story hardware store of A. M. Carr & Sons in the heart of the city this afternoon. That building appears to be doomed and others near it are in great danger. The loss will be several thousand dollars. Firemen make poor progress in fighting the fire on account of the dense smoke and the fear of other explosions.

C. S. Carr was in the cellar getting oil when a lighted match set the oil barrel ablaze. An explosion followed and the flames ran like lightning over the building. W. M. Mulford & Co., plumbers, and City Clerk George Holmes, roofing, are in the same building. The city books are in Holmes' store. Above Carr's are the offices of Attorney K. L. Coburn.

Adjacent buildings are the furniture store of D. E. Mathers and the gentleman's furnishing store of J. Atchison & Sons, which are in imminent danger. The buildings are among the finest in town.

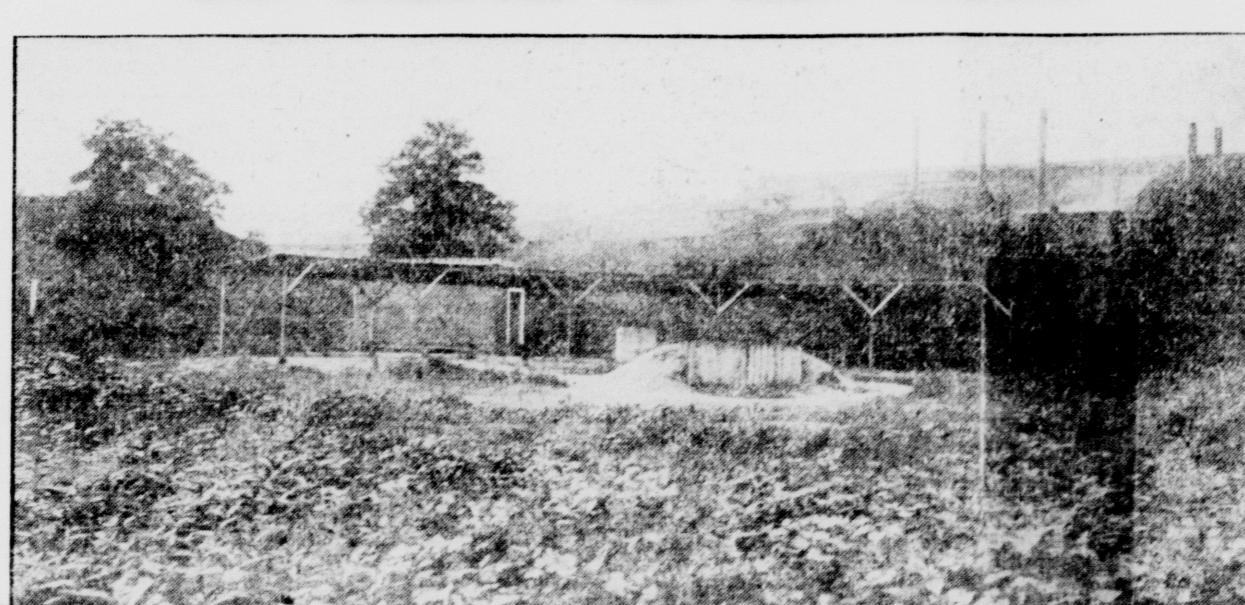

Wedded at Leetonia.

Lisbon, May 7.—(Special)—Harry Blair Price and Pearl Meek, both of East Liverpool, secured a license today and drove to Leetonia, where they will be married by Rev. Mr. Jones.

Golf Club Forming.

A golf club is being formed in the city. Nearly all of the members have been obtained and negotiations are now on for the purchase or rental of a suitable field.

EAST LIVERPOOL GUN CLUB GROUNDS.

The East Liverpool Gun club will hold its fifth annual tournament on the Chester grounds September 10. At least 15 events and valuable prizes will be given.

The officers of the club are: President, R. L. Edmonston; vice president, Hugh Johnston; captain, Dr. J. M. Little; secretary, R. W. Sample; assistant secretary, W. E. Vodrey; treasurer, L. N. Crable.

ment the stockholder will always have two weeks paid ahead.

It is thought that at least 200 stockholders can be secured, which will result in the full equipment of the store and none will need go elsewhere for necessities. The goods will either be sold at such a profit that dividends can be paid to the stockholders or at cost prices. It is very likely that the latter plan will be adopted. By it the members get the full benefit. There is a probability of the above plan being adopted, but whether it is or not some plan will be tried in the near future, and if the experiment fails nothing will be lost. The people affected have nothing to lose in the venture and everything to gain.

The grocers and butchers were the subject of conversation for quite a while, and as at previous meetings they received nothing but unfavorable opinions.

Leroy Orr, as chairman of the committee appointed to arrange for the Labor day exercises, reported that everything was progressing nicely and that the outlook for a grand demonstration is encouraging. He recommended that council appoint a committee to purchase the hats to be worn upon that day. The following were appointed: Eugene King, A. S. Coleman and George Haile.

Delegate George F. Mackey, of the American Federation of Musicians, addressed council in reply to the question whether there is more than one union of musicians. From his remarks it seems that there is, but council decided that the American Federation of Musicians could only be recognized, the others not being affiliated with the American Federation of Labor.

Council received a cordial invitation from the Carpenters' and Joiners' association to attend the picnic to be given at Rock Springs park on next Saturday. The invitation was extended by Delegate G. B. M. Beatty.

New delegates were qualified as follows: Local union No. 254, Julia Hickey, Lizzie Fowler and Lulu Shingle; Local union No. 16, Homer Lampson and Thomas Doherty; Local union No. 292, H. S. Plankinton.

CONFICTING ORDERS

AND IDEAS AS TO THE LAYING OF SIDEWALKS.

A Tangle Which the City Council Will Be Called on to Straighten.

Several happenings incident to the recent orders of the city council to property owners to pave or repair their sidewalks will have their sequel at the next regular meeting of the city fathers. There seems to be much contention between the contractors and the street committee of council.

The contractors are acting in compliance with orders from the property owners, and as a result both are being censured and threatened.

The committee has an idea as to what the grades on the streets are and wants the sidewalks laid so that they will be uniform. Everything would work smoothly if the adjoining property owners would always agree on what the grade is and then have the walk laid to correspond.

One instance illustrates the trouble. Two men on Fifth street were given an order to pave. Each paved to suit his notion, regardless of the legal grade. One of the walks is at least four inches lower than the other. A member of the committee objected yesterday upon making an examination and ordered the contractor to make the sidewalk coincide with that adjoining. The contractor refused and states that if he is compelled to make the change he will fall back on the city for payment.

Several like cases are reported and council will be compelled to take some action on the matter at the next meeting.

CAR RAN BACKWARD

And Women Passengers Began to Jump Off And Scream.

Pandemonium reigned on an East Liverpool railway street car early last evening when the car, in making the ascent on Washington street, suddenly stopped and started on a backward course down the hill. The electricity evidently ceased charging the trolley wire. As the car started a dozen or more women began to scream and several of them ran in terror to the rear end and jumped to the street.

Before the car stopped, those that had remained sitting saw that there was really no danger and the car was again started up the hill without further trouble.

FARMER SUES HIS STEPSON

Sheep Got Among His Growing Produce and Started Trouble.

WORDS AND BLOWS NEXT

Followed by a Lawsuit Before a Justice of the Peace.

EXCITEMENT IN CALCUTTA

In the court of Justice Moore, at Calcutta suit has been entered by James Nepper against Edwin S. Faulk, for \$85 for alleged damage done to the corn field and other gardens of Mr. Nepper by Faulk's sheep. This case is to be heard Aug. 18.

Mr. Faulk is a stepson of Mr. Nepper. That, however, did not prevent the sheep of Faulk eating truck that grew in Nepper's garden. It seemed that Mr. Nepper raised very good corn and other green stuff, and the sheep, learning this, proceeded to help themselves, although it was the intention of Mr. Nepper to sell all his corn and other truck in the market of East Liverpool.

While Mr. Faulk had been filed against him, he having the name of being one of those shrewd farmers, for which Calcutta is noted, told a friend, who is also a farmer named John Givens. Mr. Givens acted as a sort of a viewer, witness, or any other term that would suit the case, and in company with Mr. Faulk, went to the green fields of Mr. Nepper to ascertain whether any damage had really been caused by Faulk's sheep. The journey began last Tuesday morning, and within two hours the trip abruptly ended much to the disappointment of Mr. Faulk and his viewer or witness, Mr. Givens.

The journey to the farm was a pleasure. At the farm matters were different. Mr. Nepper saw Faulk and his viewer coming to look the fields over, and this fact made him angry. He got fighting mad. Relationship cut no ice. The idea that Faulk should think that no \$85 worth of damage had been done to his farm and crops made Nepper indignant.

"Now," said Mr. Faulk to Mr. Givens, "I think Nepper says the sheep went in the corn field this way, and that they ate various garden truck in yonder patch. Suppose we see just what damage was done by my sheep."

It was but a short time afterward until Nepper and Faulk and Mr. Givens were face to face. They talked and talked. There were many words used. Some of the people of Calcutta say more than words were used, and that fists were brought into play. It is claimed Mr. Faulk's hat was damaged, and it was a new one at that. After a short time the debate ended, but the talk about it is still going on in Calcutta and vicinity.

Nepper's case against Faulk will be heard soon by Justice Moore. After that more law is expected by the peaceable farmers of Calcutta.

A NOISY ENGINE

Too Much Whistling By the Shifter Is to Be Forbidden.

The attention of Detective James Moore, of the C. & P. railroad, was called to the fact that the engineer and fireman on the pony engine, which is used in switching cars within the city limits, make entirely too much noise with the whistle attached to the engine. Chief Thompson has listened to objections for several weeks from residents living along the railroad and was powerless to prevent it.

Detective Moore promised to have the unnecessary whistling stopped and stated that it has been the result of having a boy fireman.

BACK TO THE WORKS

Good Prospect That James Penny Will Go There For His Old Offense.

James Penny cannot stand freedom. It seems to be his ambition to rest only behind the bars. Only two weeks ago he was released from the workhouse at Canton, and unless something unforeseen occurs he will be a boarder at that institution tomorrow.

Penny was picked up on Broadway last night by Officer Dunn for the same old offense, and was given \$10 and costs or the works by the mayor this morning.

WITH THE WORKMEN IN THE CLAY PLANTS

THE MANUFACTURERS' VIEW.

From what can be learned the manufacturers are in no happy mood over the recent action of the finishers in leaving their positions. The finishers have a trade, all to themselves, and when they stop work it is not long until their action causes other departments in the pottery to stop work. A prominent manufacturer last evening said: "There is not a shop in the city but has a large amount of orders on hand, and some of these orders call for immediate delivery. Ware for these orders, at least in some instances, is now being made in the clay shops and the finishers' act has held the order back. I sometimes think that in some instances the jiggerman are themselves to blame for this dispute."

Patrick Rafferty, a well known kilnman of East Liverpool, has taken a position on the glaze bench at this shop. He commenced work a few days ago.

Baldy Miller and Dan Roseberry have arrived here from Evansville, looking for employment.

Walter Smith, a popular employee of the local pottery, who had his hand broke several weeks ago, is recovering, and a few days ago physicians took off the plaster cast. He will return to work next Monday.

Mike Fennell, bench boss on the glaze end, who has been suffering with stomach trouble for several weeks, has recovered, and is now able to be at his work.

WHEELING LETTER.

The strike at the Riverside sanitary plant is still on, with no immediate prospects for a settlement. The firm will give in to one part of the dispute, but refuses to reinstate Beswick. The men claim the firm is victimizing Beswick, although no fault can be found with his work. The entire pottery is idle. Yesterday the kilndrawers were compelled to stop work on account of having no ware. So far the firm has failed to ask for a conference with the men, and the men propose to stand firm in their demands.

George Cartridge, who has been employed as a presser at the Riverside, has left this city and has taken a similar position at the plant of the Sten-berville pottery.

William Ayers, a well known presser of this city, has given up his bench and in a few days will leave for New Castle, Pa., where he will take a position as presser at the New Castle sanitary shop.

The LaBelle, Warwick and Wheel-

PEORIA LETTER.

The plant here a few days ago shipped a carload of "oatmeals," and the firm is still rushed for more of the same class.

Everything is running smoothly at the plant of the Crown Potteries company in this city, and the prospects

for a continued long run are bright. The clay hands have been compelled to loaf for a few days on account of a shortage of boards, but are working again.

There seems to be a shortage of bis-cuit kilnmen at this plant, and it is generally understood that the company will increase the force on this bench before long. It is this shortage of workmen that caused a shortage of boards.

Patrick Rafferty, a well known kilnman of East Liverpool, has taken a position on the glaze bench at this shop. He commenced work a few days ago.

Baldy Miller and Dan Roseberry have arrived here from Evansville, looking for employment.

Walter Smith, a popular employee of the local pottery, who had his hand broke several weeks ago, is recovering, and a few days ago physicians took off the plaster cast. He will return to work next Monday.

ing potteries are in full operation, and judging from the present indications, these three shops will continue to run until the first of the year at least.

AS TO WHEELING.

The situation at the Riverside sanitary pottery at Wheeling is becoming interesting. A strike has been sanctioned in the clay department, and sympathy is being shown by the girls employed there. Why does the firm refuse to take back the old employee who formerly carried the clay to the pressers? The men are firm in their demand that he be taken back and paid for this work by the firm, in conformity with the agreement recently made between the Brotherhood and the sanitary manufacturers. The foreman asked Beswick to continue as clay furnisher, and upon his refusal to do so, discharged him. He had been doing the work of two positions, and had not been paid by the management. This has caused contention in the pottery for nearly two weeks.

ASKED FOR CONFERENCE.

Although the statement was made officially yesterday that it could not be stated when another conference between the Brotherhood committee and that representing the Western Manufacturers' association would be held, this morning President Hughes said that another joint conference between these committees would be held in the rooms of the Potters' club this evening. It is said from outside sources that this conference was requested by the manufacturers, although this statement could not be verified by any member of the manufacturers' committee this morning. It is intimated that a settlement will be reached at the meeting this evening.

WILL SOON MAKE PIPE.

The plant of the East Ohio Sewer Pipe company, at Ironton, is almost completed, and pipe making will be started in a very few days. The building have all been finished for some time, and the machinery is virtually all installed. Several down-draft kilns have also been built. It is some months since the building of this plant was started, but considering the extent of the undertaking very good progress has been made.

BACK TO WORK.

A. J. Angle, one of the kiln firemen at Laughlin's plants in the East End, has returned to that part of the city after spending several days at his former home at East Palestine. Mr. Angle states that the East Palestine potteries are now in full operation, and the outlook for a good fall run for the employees is very bright. Mr. Angle may remove his family to this city before long.

UPSET ACID.

H. R. Thompson, assistant decorator at Laughlin No. 2, met with an accident a few days ago that is depriving him of the use of his left hand. He was carrying some acid, and the can accidentally upset, spilling some of its contents on his left hand. There was enough to cause a severe burn. He is carrying his arm in a sling, and will not be able to use it for several days.

PRETTY DECORATIONS.

It has been a long time since the local potteries has presented to the trade at large ware that is so hand-somely decorated as that of today. A local salesman, who handles nothing but decalcomania, said today that his firm was making a specialty of preparing designs especially adapted to pottery, and was presenting something more pleasing than ever.

THEIR NEW CAPS.

The jiggermen at their meeting Tuesday night decided to wear caps while in the Labor Day parade. This local will make an especial effort to capture the prize that has been offered to the local that makes the best display of its trade in the parade. A committee now has this matter in hand.

EVANSVILLE SLOW.

Within the past few days letters have been received in this city stating that the pottery at Evansville is running very slowly, and many of the workmen are leaving the city for other pottery towns. The plant is operated by the Crown Pottery company the same firm that is operating at Peoria.

RECOVERED FROM ILLNESS.

Jess Wright, one of the oldest employees of the East End plant of the American Sewer Pipe company, has recovered from his recent attack of quinsy, and yesterday morning resumed his duties as shipping clerk at the yards.

POTTERY PROJECT.

There is considerable interest in the

proposition to build a small pottery plant at New Cumberland. The matter has gotten into the United States Pottery Journal and other papers, and some citizens have received letters making inquiries as to what the citizens will do.

TOPPED OUT KILN.

The new decorating kiln at the Wallace & Chetwynd, which has been under course of construction for several days, has been topped out. Work on the small building that will be used as an inclosure for this kiln will commence at once.

RETURNED TO EAST END.

Oscar Kraft, for many years a resident of the East End, well known in all the local potteries, has returned to the East End. He had been in the city but one day when he secured a position in the East End shop.

SETTLED.

The strike at the Wellsville China company's plant has been settled and the objectionable foreman of the kiln-drawing department is there no longer.

AMONG THE POTTERIES.

Isaac Bailey, lately from St. Mary's, W. Va., has a position as a pin runner at the Louhan Supply company.

The kilnhands at the Edwin M. Knowles pottery will have to loaf a couple of days on account of getting behind from the finishers' work.

Harry Jenkins, a jiggerman at the Chelsea pottery, New Cumberland, has moved his family to New Cumberland from the East End.

Jack Thompson, a printer at Laughlin No. 2, is visiting Sebring friends.

The potteries find considerable difficulty, now in obtaining clay, owing to the crush of freight traffic on the Pennsylvania lines. They used to obtain a car of clay in two weeks, but now arrival is altogether uncertain.

TRADING WAS MOSTLY IDLE.

Market, Yesterday, Continued to Demonstrate Underlying Financial Strength.

New York, Aug. 7.—Yesterday's stock market continued to demonstrate in a negative way the underlying strength of the financial and business situation in the country. Trading was mostly idle. A demand for the Gould southwesterns was the most conspicuous feature of yesterday's trading. The very heavy buying of Texas and Pacific was by the same brokers who have been active in Missouri Pacific for some time past, and the response of other railroads in the group was purely sympathetic. The operations were supposed to be for account of the same pool which has followed the upward movement in these stocks from the start. Hocking Coal made a jump on inspired intuitions that large new interests were to enter the property and expand its field of activity. Hocking Valley was bought on the advantage the bituminous coal trade is enjoying from the paralysis of the anthracite trade.

A Safe Cure for Headache.

Have you ever felt depressed after taking a headache remedy, and do you know that if it contained a Heart Tonic it would cure without that depression? Clinic Headache Waters are a Heart Tonic, never depress, never fail, best and safest cure in the world. Easily taken. Absolutely harmless. 10 cents, all druggists.

Women and Jewels.

Jewels, candy, flowers, men—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Charles F. Craig's.

East Liverpool as a summer resort has claims superior to many more widely advertised localities. For instance, there are verdant, clad hills, as beautiful as the mountain regions offer; water in abundance, suitable for boating and bathing purposes; springs that afford a better beverage than some that are more famous, besides picnic resorts par excellence and unlimited opportunity for hunting and fishing. Those compelled to stay at home can console themselves with the reflection that it is easy to go farther and fare worse.****Somebody is lying about Bryan or else he is losing his mind. After his repeated refusals, wholly voluntary, to be considered in the light of a presidential candidate, a story comes out of the west that the perpetual talker now says he would accept the nomination if it were tendered him. Of course, he would; but the simon-pure Democrats will see that it is not tendered. Bryan has never been within a million miles of the presidency; but he has been nearer to it than he will ever be again.****The Billy Mason party in Illinois is not likely to be either large or respectable. At all events, it will include very few Republicans. Members of the old party in Illinois have seldom been floppers, and they certainly have no reason to flop to a man who criticizes McKinley and did all in his power to make the late president's difficult tasks still more difficult. True Republicans have seen and heard all they want of Mason. Out he goes, and out he stays.****Salem, Toronto, Steubenville, Wheeling, and numerous other neighboring towns have boards of trade which are going after new industries and landing them. East Liverpool, capable of as much enterprise as any or all of them, allows undertakings of vast moment to go to its neighbors, simply because there is no organization to work for its interests. Is this condition to be allowed to continue indefinitely?****A new primary election law should be made a part of the municipal code which the legislature in extra session, will enact. CRUELTY AND NEGLECT

Charged By Lisbon Woman Who Enters a Second Suit for Divorce.

Lisbon, May 7. — (Special) — Mrs. Mary E. Burnip, of Lisbon, has re-entered her suit for divorce against James Burnip. This case came up for trial some time ago and a divorce was refused because the plaintiff had not exercised reasonable means in trying to locate the defendant, who lives in England.

Mrs. Burnip asks for divorce on the grounds of cruelty and gross neglect.

Ex-Corporal O'Brien Arrested.

North Adams, Mass., Aug. 7.—Shortly after midnight a special officer from Washington awoke Corporal Richard O'Brien at his home in this city to place him under arrest on the charge of perjury in his testimony before the senate committee last May regarding affairs in the Philippines on a bench warrant from the supreme court from the District of Columbia.

WHY THEY FAIL.

Some Advertisers Expect Too Much
In the Beginning.

The reason so many advertisers fail to get satisfactory results is because they begin with an exaggerated notion of the returns they should get from the start. They run for a few issues, results do not meet their expectations, they become discouraged, say it's no use, it doesn't pay, and drop out. No business was built up in a day, and, in fact, it is seldom any man can say that during his first few years in business he any more than made his expenses and considers himself very lucky if he does as much.

A salesman is not expected to sell much the first time he covers new territory. His initial trip is merely introductory, and he has to be on the road for a long time before he will be of real value to his employers. It is the same with advertising. The first ads are introductory, and to bring results they must be followed up persistently and systematically. It is a cumulative force, gaining at each issue, like an avalanche, which if left unchecked carries everything before it.

But to get these results the advertiser must have an article of thoroughly demonstrated practical value, unbounded faith in its merits and go in with the determination that before he is through he is going to impart the same faith to others.—Medical and Drug Advisor.

Be sure, before you give your love and your trust, that you are giving them not only to one who deserves them, but to one who really wants them.—"Many Waters."

Useful Purposes of Rosin. There are many useful purposes to which rosin can be applied outside of those of general practice. As a non-conductor of heat it is used in the protection of water pipes, particularly in crossing bridges, where the pipe is laid in the middle of a long box and the whole filled with melted rosin. Rosin is also used in supporting basement floors in machine shops, which may be laid over some dry material, as spent molding sand, which is carefully leveled off, and the planking laid upon temporary supports separating it about two inches above the sand.

Numerous holes about two inches in diameter being bored through these planks, melted rosin is forced through them by means of funnels until the whole space is solidly filled, and then the upper flooring is laid upon these planks. In case the floor is subjected to shocks sufficient to break the rosin it rapidly joins together again in much the same manner as the regulation of ice.

WELLSVILLE

COMING PRIZE FIGHT

Bunting, the Wellsville Man, Going Through a Rigid Course of Training.

Edward, better known as "Skinny" Bunting, the local lightweight pugilist, has made quite a stir among the local sporting fraternity this week. In his forthcoming contest with Lawrence Lutz, the Beaver Falls boxer, who is making his headquarters in East Liverpool, Bunting is confident of victory. The weight agreed upon, 142½ pounds, called for fasting and vigorous training on Bunting's part, as his weight was about 14 pounds in excess of the limit. By careful training, however, he surprised his friends by tipping the scale at 145 last night. His weight will be brought still lower, and then he will rise to the fighting weight by slow degrees. Stockton and Finley, his trainers, are jubilant. Money is being placed very lightly on the fight. Odds were asked by Bunting's backers, while the Lutz men want even money.

Terry Carman, Lutz's manager, is in Wellsville daily, watching Bunting's progress closely. He stated to day that Lutz is not training hard and has no sparring partner nor assistants, not needing either. He says he is a boxer with a record of one defeat, three draws and has whipped nine men. The fight is to be pulled off, Carman says, within five miles of East Liverpool.

Funeral of William Snowden.

A multitude of friends and relatives were present at the Snowden obsequies this afternoon. William Snowden was one of the best known men in Wellsville and was universally respected. Rev. H. W. George, of the university of Wooster, a lifelong friend and associate of Mr. Snowden, conducted the funeral services. Rev. T. V. Milligan assisted. The pall bearers were Dr. J. W. Hammond, Prof. J. L. McDonald, Dr. B. R. Parke, Dr. A. Noble, T. B. Stevenson and J. C. Cattell. Burial was made in Spring Hill cemetery.

Many Excursionists.

Many persons from here took advantage of the excursion to Atlantic City this morning, and when the train pulled out a good sized crowd accompanied it. Among those who went were Albert and Henry Goetz, who will also visit New York and Philadelphia; David Mannist, who will visit in New York; Ed Matthews, who will take a vacation from work at the steel mill, and Misses Nellie Kelley and Eula Pickering.

Persists in Running Away.

A child named Robinson, aged 12, who persists in running away from her home, was brought before the mayor today at the wish of her parents, who are compelled to adopt drastic measures in order to prevent her running off to Pittsburgh. Her sister also appeared and seemed angered by the arrest. A few words from Officer Davis quieted her and she decided it best to return home.

Tearful Children.

Mayor Fogo's office has been besieged all morning with the parents of the youngsters who were arrested and fined for jumping on freights. They come, in most instances, to pay the fine assessed. From conversation it is evident that several of the youths received more punishment at home than at the mayor's office.

To Return From Mexico.

Arthur Thomas received a letter from his brother, who is a clerk in one of the government departments in the city of Mexico. The letter stated that he would be in Wellsville on a visit within the next month.

a large window in the store front of C. B. Cummings, of West Main street, was shattered. Mr. Cummings was standing near and a jagged piece of glass struck the back of his hand, cutting a bad gash. Other damage is reported on West Front street.

Talked With Creditors.

J. A. Spencer, son of Contractor Spencer, who recently disappeared, was in the city today and consulted different creditors of his father, seeming greatly mortified at his father's course. Prosecution is threatened by some. Spencer is thought to be not far away.

WELLSVILLE SHORT STORIES.

Mrs. T. L. Apple is visiting friends in New Castle. Miss Grace Kelley, daughter of Frank Kelley, is sick.

Dr. A. L. Robinson was at New Castle, his old home, today.

Mrs. Samuel Clark and two children are visiting in Cleveland.

John Morris, a brakeman, is sick at his home on Fifteenth street.

Mrs. William Lawson and Bessie Brannan are Pittsburg visitors.

Thomas McCann and John Hannon, of Toronto, were in the city today.

Miss Alice Springer, of Crafton, Pa., who has been the guest of her uncle, Captain John Todd, returned home today.

Mrs. Eva McClemmons, of Pittsburg, is the guest of her father, T. R. Anderson, at the Oak Grove camp grounds.

Mr. and Mrs. George Ashley are in Jamestown, N. Y., visiting friends. They will go to Lake Chautauqua before their return.

W. H. Sheets, roundhouse foreman at the Wellsville shops, is taking a vacation and will not report for duty for several weeks.

Ed Adams, of Commerce street, has been promoted from train caller to clerk, having his desk in the yardmaster's office in the Wellsville shops.

Louis Brookman, a mechanic employed in the air brake room at the railroad shops, has resigned and contemplates locating outside the city.

George Hirst, fireman on shifter 693, is still off duty and his substitute is taking his place. Hirst had his right hand hurt over a week ago, and it has swollen badly.

The new system of engine numbering is being adhered to in the Wellsville shops and each locomotive which leaves the round house after repair will be renumbered and the tender neatly lettered.

Albert McClellan, of Nevada street, who was badly injured in a yard smashup several weeks ago, is slowly recovering to the surprise of his friends, who feared he would never recover. In a few weeks he will go on duty again.

SHE UNDERSTOOD.

Mr. Tiff Makes a Statement That Causes Trouble.

"Is there anything in the paper?" asked Mrs. Tiff of her husband, who had been monopolizing the Evening Bugle.

"No," replied Mr. Tiff.

"It seems to me that you are taking a long time to read nothing. Suppose you hand it to me. Perhaps I can find something in it."

"Well, here is something which may interest you. A man in Chester refused to pay his wife's funeral expenses, and the undertaker sued him for the money. The court decided that a husband must pay for his wife's burial. What do you think of taking a case like that to court?"

"I should think the man ought to be ashamed of himself," declared Mrs. Tiff emphatically.

"So should I," asserted Mr. Tiff.

"The idea of a man not wanting to pay for his wife's funeral! I should have thought he would have been perfectly delighted to!"

"John Henry Tiff, what are you saying?" demanded the gentleman's wife.

"Oh, of course I didn't mean that, you know. I mean that he should consider it a sacred duty to give his wife a respectable burial and pay for the same cheerfully."

"I understand perfectly what you are saying, Mr. Tiff. You tell me that you wish I was dead, that you would pay my funeral expenses cheerfully, that you would be perfectly delighted to have the opportunity—perfectly delighted!" were your very words, John Henry Tiff, and I think you are a wicked man!"

"Oh, now, look here!" protested Mr. Tiff, "you know very well what I said wouldn't bear any such construction if you weren't so ready all the time to find occasion to scold me."

"You needn't try to defend yourself, for you can't do it. You said you'd think that a man ought to be delighted to have the chance to pay for his wife's funeral. It's enough to make any self-respecting woman go and commit suicide, so it is. And I'd go, too, much to your satisfaction. Oh, why, oh, why did I ever think that I could love such a wretched as you?"

At this point Mrs. Tiff burst into tears, and Mr. Tiff put on his hat and walked out of the house.—Tit-Bits.

SOUTH SIDE

NO JURISDICTION

Opinion of Justice Ward in Case of Good vs. Elliott.

The hearing of John Elliott, charged by E. S. Good with swearing falsely in the late liquor case against Good, was called for trial before Squire James Ward, of New Cumberland, in city hall this morning. Elliott was represented by Attorney George Ingram and Good by Attorney O. S. Marshall, of New Cumberland.

Squire Ward granted a continuance in the case until 1 o'clock this afternoon, but intimated to a News Review reporter that he had no jurisdiction in the case, and this would be his decision. His reason for not acting is that neither Squire Johnston or Mayor Shrader is ill, and only under such conditions could a justice outside their district act in cases pending. He says the West Virginia code is very plain on this question. It is probable that a new warrant will be sworn out and the case heard before either Squire Johnston or Mayor Shrader.

Paralyzed.

W. K. McClurg, of New Cumberland, who is aged about 79 years, suffered a paralytic stroke yesterday and his recovery is not expected. He has been a resident of New Cumberland for many years.

Two Deaths in Turkeyfoot.

Two deaths occurred in the Turkeyfoot district this week. A daughter of Mr. and Mrs. Daniel Swearingen died at the asylum at Weston, W. Va., and Miss Sallie Bright, a maiden lady, died Tuesday.

New Cumberland Picnic.

The union Sunday school picnic came in from New Cumberland this morning on a train of 12 coaches. They are enjoying themselves immensely. Many are visiting the potteries in the city.

CHESTER NOTES.

William Johnston, of Chester, is quite ill.

The Columbiana Telephone company is stringing two new wires along Carolina avenue.

Kennedy Irwin has purchased a lot in Lawrenceville and is erecting a fine new residence.

J. C. Moore & Co. have completed well No. 13 on the L. Gardner farm and have a duster.

Mrs. William Skeen, of Pittsburg, is visiting her son, W. R. Skeen, the Carolina avenue druggist.

The street railway tracks along Carolina avenue are now being surfaced and leveled up with gravel.

Mrs. William Simpson, of Tenth street, has gone for a six weeks' visit with relatives at Sterling, Mich.

The fishing job is still on at the Ferguson well, near Hookstown. A number of Pittsburg operators visited the well yesterday.

Two lots in Lawrenceville were sold to John D. Walker and Robert Danner of Eldersville, and they will erect residences, commencing next week. They will move to Lawrenceville.

Dr. George Maxwell and wife, of Dauphin, Pa., who have been east to New York and visited a few weeks with F. R. Ramsey, a brother-in-law near Hookstown, have returned home.

OUTLAW TRACY DEAD

Committed Suicide in a Wheat-field. After Being Badly Wounded.

HAD MADE A DESPERATE FIGHT.

Had Made Desperate Fight—His Aid Was Bad and He Failed to Add to His Long List of Victims—Coy Betrayed Him—Sketch of His Career.

Spokane, Wash., Aug. 7.—Harry Tracy, the outlaw, committed suicide, near Fellows, a station on the Washington Central railroad, about 50 miles west of Spokane, Wednesday night.

After baffling the officers of two states, after a wonderful flight of nearly 400 miles across Oregon and Washington, Tracy was hunted down by four citizens of the little farming town of Creston and a lone deputy sheriff. Sheriff Gardner and posse arrived in time to guard the wheat field through the night, but the work had already been done.

The posse that will share the reward was made up as follows: C. A. Straub, deputy sheriff; Dr. E. C. Lauter, Maurice Smith, attorney; J. J. Morrison, railway section foreman, and Frank Lillengren. These men, armed to the teeth, set out from Creston Wednesday afternoon about 2 o'clock. They were working on the information of the Gottsch youth, who had been forcibly made the companion of the Oregon convict for over 24 hours at the ranch of L. P. Eddy, on Lake creek, about three miles south from Fellows, a station on the Washington Central railway.

Tracy Fought His Pursuers.

Tracy fought his pursuers, but failed to hit any of them.

He escaped into a wheat field and darkness set in. The wheat field was then surrounded and daylight awaited.

Shortly after Tracy disappeared a shot was heard from the direction of the wheat field. No investigation was made, however, until yesterday morning. As soon as dawn came an entrance was made into the wheat field.

Tracy's dead body was found lying amid the grain, with his face turned toward the sky. His left hand, thrown over his head, held a revolver, which had inflicted the death wound. The thumb of his hand was on the trigger of the pistol. His right hand, thrown across the lower part of his body, firmly grasped the barrel of the famous rifle. Death was inflicted by a revolver held close to the forehead. The top of his head was badly shattered.

Two bullet wounds on the left leg showed the cause of the man's despondency. One shot had broken the leg between the ankle and the knee. The other cut the tibial artery, which of itself was sufficient cause for death.

Harry Tracy escaped from the Oregon state penitentiary at Salem on June 9 in company with David Merrill, after killing four men, Frank W. Ferrell, G. B. T. Jones and R. F. Tiffey, guards, and Frank Ingram, a convict, who tried to prevent his flight. On June 28 Tracy killed Merrill near Napavine, Wash., shooting him from behind, and leaving his body in the forest, where it was found on July 15. On July 3, near Seattle, in a fight with a posse, Tracy shot and killed Charles Raymond, a deputy sheriff; E. E. Breske, a police man, and mortally wounded Neil Rawley, who died on the following day. Wounded Carl Anderson and Louis Seafire, newspaper reporters.

Committed Many Feats of Daring.

Tracy committed many feats of daring in his flight, in the course of which he eluded various posse when apparently surrounded and held up numerous farmers, whom he forced to furnish food and clothing, and by threats of murdering their families compelled them to cover up his tracks. Perhaps his greatest show of daring was displayed on July 2 at South Bay, near Olympia, when he held up six men and forced four, including Captain Clark, of a large gaso-line launch, to embark with him on Puget sound and pilot him up stream for 10 hours.

In 1897 Tracy murdered Valentine Hoge, a Colorado cattleman, and Will Ham Siring, a boy in the same state. A total reward of \$5,000 was offered for his arrest. Governor McBride, of Washington, offering \$2,500 for his capture, dead or alive. The state of Oregon offered \$3,000, and a brother of one of the guards killed at the penitentiary offered \$100.

At the time of his escape Tracy was in prison for burglary, he having been arrested in Portland, Feb. 6, 1899, after an exciting battle with Detective David Weiner. Tracy fired two shots at the detective, wounding him, and then jumped onto an engine with his revolver to the head of the engineer. He ordered the engineer to go ahead at full speed. The conductor stopped the train, however, and seeing that his plan had been frustrated, Tracy jumped from the engine and started to run. Half a dozen shots were fired at the fugitive, one of which took effect behind his ear, and he was captured. A month afterward, while being taken from jail to the court room, he exchanged several shots with the jailer, but was overpowered.

Affairs Of the Diamond

"Mugsy" McGraw the Man of the Hour In Baseball
Mike and Ruth O'NEIL

THE leading topic of conversation in baseball circles these days is the New York team and its new captain-manager, "Mugsy" McGraw. To say that a bombshell was thrown into the American camp by McGraw when he demolished the Baltimore organization, taking with him to the Giants many of the Orioles, is putting it mildly. While it was thought for some time that he would jump to the Nationals, his American colleagues had no suspicion that he would countenance the complete smashup of his former nine. Ban

"After being subjected for some time to an annoying female trouble," says Mrs. Minnie Tillison of Potomac Vermilion Co., Ill., Box 100, "I wrote to Dr. R. V. Pierce, who at once understood my trouble and advised me to take his favorite Prescription and Golden Medical Discovery, and use also his Lotion Tablets and Suppositories." After using his medicines eight or nine months I was completely cured.

"I am grateful to Dr. Pierce for his advice and the many comforting letters he wrote to me. I would advise any woman suffering with female disease to consult him. Prompt and respectful attention will be given and good advice received by so doing."

RIVER PIRATES

Towns Down the River Make Many Complaints of Thefts By Shanty Boatmen.

"Just now," said an informant who is thoroughly posted on the movements of thieves and shady characters along this section of the Ohio valley, "Ekeyville and surrounding sections are overrun with shanty boat thieves who have been driven up the river from points below that territory having become entirely too hot for them."

A large number of them are also residing in Ekeyville, and it will not be surprising at any time to hear of cases of petty thieving and robbery in this immediate section. The pilferers had enough experience with railway depots to avoid making any entrance into them, for they are quickly and surely rounded up. They carry on, however, a system of thieving which is annoying to farmers and other residents along the Ohio valley, and especially is this so in regard to iron, brass and anything of that nature salable as junk which they can dispose of in the large cities. Many of them have wagons and at night tour the country districts, hauling away plunder, which they cache for a time until the search always instituted blows over.

The shanty boat doubtless shelters many honest people and many thieves as well. Ekeyville and Empire have always been hotbeds for these river pirates, and it is urged that the law be strictly enforced to clean them out.

JACK O'NEIL, CATCHER.

Johnson, McGraw's sworn enemy, states that the defection of the ex Oriole has not worried him at all, but those "in the know" are well aware that the American president is considerably disturbed over the situation and fears other serious breaks in his forces, notably in Chicago, where Comiskey has lost few opportunities to show pleasure at certain of Johnson's actions.

There is no denying that the New Yorks have been greatly strengthened by the Baltimore contingent and that they have a royal opportunity to make a good finish. McElroy, the famous "iron man," who ran away two years ago from Ed Hanlon, is a decided acquisition to the pitching department, which during the early part of the season performed worse than the twirling end of the average high school team.

The Much Talked of O'NEILS.
One of the interesting features of the season is the fine showing of the O'NEIL brothers, the St. Louis battery which has been principally responsible for a majority of the games won by this team.

Mike and Jack, the O'NEIL brothers, were unknown to fame a year ago. Now they have a national reputation. Mike as pitcher and Jack as catcher form the strongest battery the St. Louis National League team possesses.

They are college bred youths, and it is only two years ago since both were battling on the grassy sward for their alma mater, Villa Nova High School.

The boys bear a marked resemblance to one another. Both are put up on solid lines. Neither is six feet tall, though each weighs but an inch or two of that figure. The weight of the pitcher is about 175 pounds, the weight of the catcher eight pounds less.

The pitcher was signed by Captain Donovan for the Cardinals last August. O'NEIL had done a little work for an Eastern league team and fared fairly well. All the old Phillips, particularly Donahue, told Donovan that he had made a ten strike when he landed the youngster. To show the boys from Philly that he was just as good as they said he was one of his first feats after joining the resident crew was to defeat the Quakers.

Jack O'NEIL's Career.
John, or Jack, as the Cardinals call him, is the catching member of the family. A year ago there wasn't a professional team in the land that would give him a trial. Now every manager in the business would offer the boy a princely sum. And Jack's presence on the team happened by mere chance. With Jack Ryan and Arthur Nichols catching the best of ball, O'NEIL was deemed too light of build and too inexperienced by Donovan, so early in May he was served with the regulation ten days' notice of release.

While he was sitting on the bench awaiting an offer Ryan and Nichols both received injuries that caused their retirement from the fray. Donovan had no one to work but Jack. The lad went to work with a will and showed right from the jump that he was just as good as either Ryan or Nichols. He caught several games before he was given the chance to double up with his brother.

Mike started the campaign with mis-

erable success. Cincinnati and New York had both driven him off the firing line. With the advent of real warm weather he struck his true gait and soon had all visiting batsmen badly puzzled.

Six Straight Victories.
Paired with his brother, Mike earned six successive sets of brackets. His success their first trip together was remarkable. He won a game at each stand, followed it up by tanning Pittsburgh and finally had his grand record punctuated by Cincinnati, the weakest aggregation of players he had battled with in a month.

Mike is a southpaw. He and his brother, two well bred, well groomed and well educated lads, are just now the idols of St. Louis fandom. And as for forming a brother battery, they are the warmest ever, the Ewings, "Buck" and John, and the Crosses, Monte and Late, not excepted.

A little story is going the rounds in connection with the name "Joyce," which was assumed by Mike O'NEIL last season. It is said that Mike, who was in college, became so fond of the game that he could not keep out of it and deserted his studies to become a baseball pitcher. Not wishing the faculty of the college or his relatives to know just what he was doing, he assumed the name Mike Joyce. Since he has been successful in the major league he is using his right name, but he has been unable to shake off the fictitious name of Joyce.

Colonel Rogers' Law Troubles.
As was expected, the Philadelphia National League club lost its suits against Lajoie, Bernhard and Flick in the United States court at Cleveland. No other result was looked for after the Dulles decision.

What made the matter worse than anything that had gone before in litigation was the contemptuous manner in which the case was treated by Judge Wing. Without even making a show of going into the merits of the cases, as other judges have done, he simply threw the cases out of court for lack of jurisdiction.

The only recourse of the Philadelphia club now is to begin new suits in the Ohio state courts. This the club will do, notwithstanding its previous rebuffs and the slim prospect of success.

When it comes to battling for what he regards as "a principle," Colonel Rogers has the gamest bulldog skinned to death.

Unpopular Players Have Gone.

All of Hanlon's Superbas are liked. The last of the unpopular players has left Brooklyn. When the season began, it was not certain that Brooklyn had much of a team, but so skillfully have the men been handled by Hanlon that they have worked their way to second place, and there is not a spectator in the seats who is not thoroughly in touch with them. Now when the

Brooklyn's lost a game the comments are not as they were two years ago. Then a lost game meant a series of sharp taunts from the bleachers: "The swell heads got done up again, did they? The smart guys aren't as smart as they think they are," and so on.

Today if the Brooklyn's lost it is hard luck pure and simple. The crowd comes back the next day and "roots" for Brooklyn to win. It doesn't come to see an exhibition of baseball, but it comes out to take part with Brooklyn and work teeth and nail for the success of the Superbas. That's the success of the Superbas. That's the success of baseball. When you get local pride working after that fashion, it is of some consequence in the sport.

Small Things That Count.

It is said that Caesar chose his generals according to the length of their forefingers in comparison with that of their second fingers. No man whose forefinger was over one-eighth of an inch shorter than his middle finger had a ghost of a show. Men with very short forefingers are supposed to be effeminate. I believe it is so. Napoleon's generals were selected by their noses. Cromwell believed that bearded men made the best soldiers. Washington preferred men with high cheekbones. Receding foreheads were the rule among his generals. Alexander the Great judged men by their teeth, those having very large canines being preferred as commanders.—New York Press.

COLLIERS RUINED,

Mine Inspector Reports Five Useless, In Shenandoah, Pa. Region.

THE LOSS ABOUT \$1,500,000.

Others In Such Condition It Will Take From One to Four Months to Repair Them—A Watchman Murdered Because He Wouldn't Quit Work.

Shenandoah, Pa., Aug. 7.—William Stein, the state mine inspector for the Shenandoah region, yesterday announced that five collieries under his jurisdiction, which have an estimated total value of \$1,500,000, have been rendered useless by reason of having been flooded and have been permanently abandoned by the companies owning them.

Fifteen Could Resume Immediately.

Mr. Stein estimates that out of the 36 collieries in his district only 14 are in a condition for immediate operation if the strike were ended. The others are in such a condition that it would require anywhere from one to four months to clear them of water and make repairs. He said the average time would be about two months.

The abandonment of the five collieries will compel 2,000 mine workers to seek employment in other parts of the region, and they may have trouble in finding it if the thousands of men who have left the region during the strike should return. This condition of affairs, the mine inspector says, is a serious matter not only with the companies, but also with the men.

After the strike shall have ended, most of the workmen will have to remain in idleness for another period of time until the collieries are placed in working condition.

In the coal fields south or near Mr. Stein said the situation is about as bad.

In the Wyoming and Lackawanna region the mines are in much better condition.

The mine inspector's statement created considerable interest here, as it confirmed the belief of some of the coal company officials that a full resumption of coal mining will not take place this year, and in consequence the tendency of coal prices will be upward rather than downward.

The situation so far as the peace of the Shenandoah region is concerned remained unchanged yesterday.

MURDERED BECAUSE HE WORKED.

Winkles, Pa., Aug. 7.—Daniel Sweeney, employed as watchman at the Buss colliery of the Lackawanna Coal company, at Nanticoke, was met on the road to Hanover, where he is older, shortly after midnight yesterday morning, by several men, who clubbed him to death. Sweeney was one of the men who refused to strike when the order was given and one night during the latter part of June he was held up by strikers and badly injured.

Several arrests were made at that time and his assailants were held for court. The murdered man told the superintendent of the mine where he was employed that some of the strikers had told him last week that if he was wise he would quit at once. Sweeney said he needed employment, as his family was in want.

The next day another delegation of men met him on his way to work and told him that if he did not quit work he would be sorry. Sweeney said these warnings worried him, but he resolved to continue at work.

AGAINST LABOR MEN.

Judge Goff Decided Habeas Corpus Case, at Clarksburg, W. Va.

Clarksburg, W. Va., Aug. 7.—Judge Goff yesterday afternoon, in a lengthy opinion, decided the habeas corpus case against the miners and agitators and remanded them to the custody of the marshal and sheriff, and they will be removed to Parkersburg to serve the balance of their sentences.

The judges said the only question was as to the jurisdiction, and that the Guaranty Trust company, of New York, was entitled to a standing in court, and it was not absolutely necessary for the fuel company to be made a party to the suit. The decision was a great disappointment to the miners, and their counsel say that no other action can be taken at present at least.

Democratic Committee to Meet.

Horriston, Aug. 7.—A call was issued by William T. Cramsey, chairman of the Democratic state committee, yesterday for a meeting of the state campaign committee, to be held at state headquarters in this city, next Tuesday, to discuss matters pertaining to the fall campaign. A meeting of the state executive committee will also be held at the headquarters on

FAMILY REUNION

THE MALEY'S WILL MEET AT THE OLD HOMESTEAD.

Large Numbers Will Go From Here And Wellsville on Saturday.

A reunion of the descendants of Peter and James Maley and sisters, who settled on a section of land in 1838 at Summitville, out the C. & P. main line, will be held Saturday. There are about 40 of the descendants residing in East Liverpool and about 20 at Wellsville, and they number about 125 all told.

The reunion will be held in Morgan's grove near the old homestead, which is now owned in part, some 230 acres, by Mrs. Edwards Collins, a widow, formerly Miss Jane Maley, and Hugh Maley, another descendant.

No. 335 westbound passenger on the C. & P. Saturday morning will have a special car attached to take those of the relatives who desire to attend from this city and Wellsville to Summitville. It will be attached to train No. 316 returning in the evening.

The gathering will simply take the form of a basket picnic, and no orator has been secured. The reunions occur annually. There will be dancing, singing and a ball game during the day and other amusements. A stationary platform is in the grove and a suitable orchestra will be provided. The reunion will be attended by only the Maley descendants.

DELIGHTFUL SUPPER

Given Delmonico Club Members. Followed by Bowling Match.

Menbers of the Delmonico club and invited guests to the number of sixty enjoyed a very delightful supper in the old dining hall at Rock Springs park last evening. This is an annual event given the members by Mrs. Miller, stewardess of the club, and all unite in extending their thanks.

After supper all gathered at the bowling alleys and teams were chosen for a match game. Captain McCurdy's team carried off the honors by winning two of the three games. Most of the ladies present took part and every one returned home tired and happy.

19TH YEAR. NO. 185.

EAST LIVERPOOL, O., THURSDAY, AUGUST 7, 1902.

TWO CENTS.

HANNA COMES TO THIS COUNTY

The Senator Booked For a Campaign Speech at Lisbon This Fall.

VISIT TO HIS BIRTHPLACE

Will Be the First He Has Made in a Dozen Years or More.

COLUMBIANA COAL OUTPUT.

From a Staff Correspondent.

Columbus, Aug. 7.—During the coming fall campaign United States Senator Marcus A. Hanna will, for the first time in his career in public life, make a stump speech in Columbiana county. While in Cleveland last week Senator Charles C. Connell met and had a long talk with the senator, during which he exacted a promise from the latter to deliver an address in Lisbon some time during the campaign. The senator said that nothing would give him greater pleasure and declared he had a warm spot in his heart for Columbiana county and especially for Lisbon, and there are excellent reasons for assuming that he was telling the truth, for it was at the latter place that he first saw the light of day. He has not visited his birth place for a dozen or more years and he stated he would contemplate with pleasureable anticipation his return to that thriving little community. He suggested that the senator go through the formality of making requisition to the board of speakers of the Republican state committee for his services which will be at this body's command. Senator Connell will do this at once, and expects no trouble in getting Senator Hanna assigned for a date in Lisbon. Chairman Charles Dick and Senator Nicholas Longworth, of Cincinnati, who is one of the drafters of the code, will also be invited to attend and speak with Hanna.

Senator Connell says that the village code is practically completed. In brief it provides for the election of a mayor, treasurer, clerk and marshal and council members and three water works trustees. The solicitor is to be appointed by the mayor and council will make all contracts and grant franchises. An elective board will be provided for for municipal light plants. The senator stated that the line of demarkation between cities cannot be finally fixed until both codes are finished entire. He differs with Governor Nash on the dividing line. He thinks it should be 5,000, while the governor would like to have it put at 15,000, and under no circumstances under 10,000. The attention of the code builders was called Wednesday afternoon to one important matter which had been overlooked by them. It relates to the redistricting of the wards of cities and villages under the new code.

It was asked what the authority would be for the establishment of the boundaries, which led to the disclosure that this phase of the question had never occurred to the code builders. There is some talk that annual sessions will be returned to. Senator Archer is said to have declared that when the legislature adjourned it would be to meet again in January of next year.

The annual report of State Mine Inspector J. E. Biddison, filed with Governor Nash Wednesday afternoon, shows that 20,321,290 tons of coal were mined in Ohio in 1901. The output of iron ore product was 41,325 and that of fire clay 1,337,181 tons. The production of coal in Stark, Columbiana and Mahoning counties during the year was as follows: Stark, lump, 792,555; nut, 101,780; peat and slack, 154,758; total, 1,049,093; loss compared with year 1900, 101,139. Columbiana, lump, 510,068; nut, 124,759; peat and slack, 157,676; total, 792,555; gain over year 1900, 74,425. Mahoning, lump, 39,245; peat and slack, 7,995; total, 52,755; loss compared with year 1900, 56,753.

In Columbiana 315,443 tons of coal were mined by machines, while but 38,141 tons were mined by this method in Stark. There are no machines in use in Mahoning. There are 76 mines in Stark, 50 in Columbiana and 32 in Mahoning. The number employed in these mines are as follows: Stark, miners, 2,359; day hands, 267. Columbiana, miners, 1,071; day hands, 326. Mahoning, miners, 213; day hands, 69. In Stark during the year 16 new mines were opened, six were suspended and

eight abandoned. Four were opened, five suspended and five abandoned in Columbiana. Two were suspended and one abandoned in Mahoning. In point of production Stark was ninth, Columbiana tenth and Mahoning 22nd. There were 48 accidents in Stark, 20 in Columbiana and one in Mahoning. Three of the accidents in each of the first two counties were fatal. The deputy mine inspector made 174 official visits to Stark, 114 to Columbiana and 23 to Mahoning. There are 30 coal producing counties. Seventy-two persons were killed, one to every 282,240 tons of coal mined.

SURVEY FINISHED

FOR DOUBLE TRACK ON C. & P. TO WELLSVILLE.

Work Will Start Shortly on the Extra Track in This City.

The survey for the double track between Ralston crossing on the C. & P. and Wellsville, has been completed. The work of laying the track will begin shortly. The new improvement is one of the matters projected for the handling of traffic not only in East Liverpool, but in Wellsville.

It is not yet determined whether shifting crew will be placed in the city, though the present crew is working 15 to 18 hours per day.

DISCHARGING FIREARMS

The Charge on Which Dan Densmore Was Called Before the Mayor.

For violating section 19 of the city ordinance book Dan Densmore was arraigned before the mayor this afternoon. He was arrested at 11 o'clock last night on suspicion of discharging a revolver.

The officer states that Densmore, in company with three unknown fellows, were on Sheridan avenue when he heard a pistol shot. Running immediately to where the men were standing, he accused them, but they all denied having fired the shot and asked to be searched. The officer was about to believe that he was mistaken when he saw a gun lying at the feet of Densmore. Densmore pleaded not guilty, before the mayor, and will have a hearing Monday.

MARRIED IN LISBON

Picnickers Drove From Rock Springs to Be Made One.

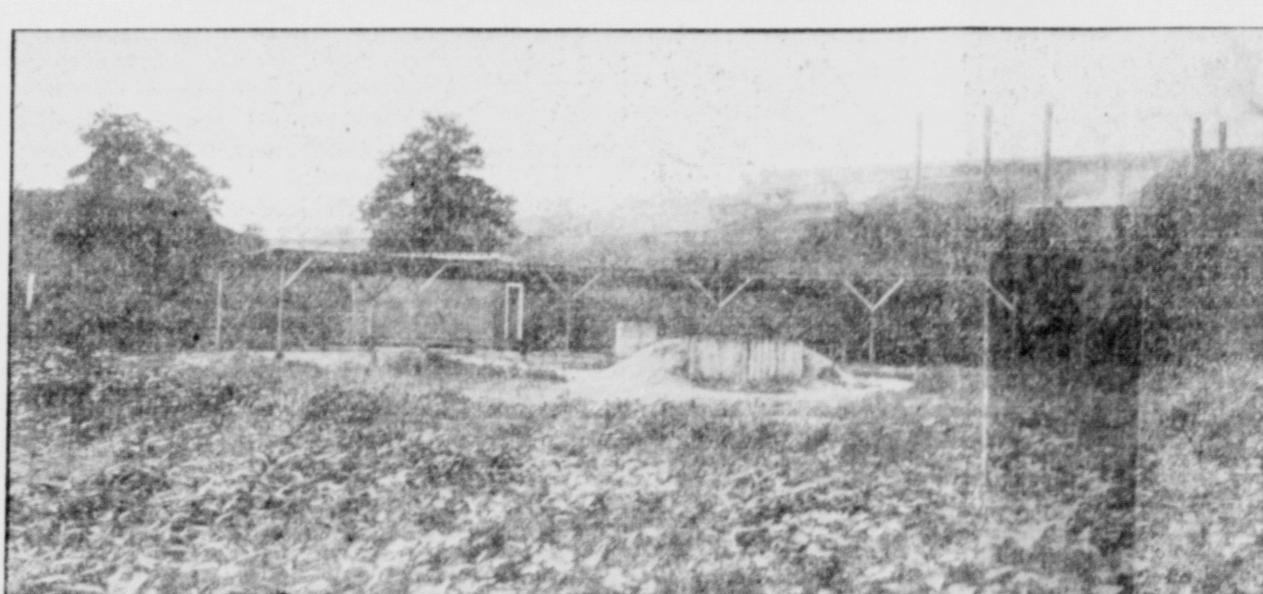

Lisbon, May 7.—(Special)—Huber H. Helmrick and Jeannette L. Moore, both of Canton, were married in the probate court room yesterday afternoon by Rev. A. W. Lytle. The happy couple were attending the Lutheran reunion at Rock Springs park and drove to Lisbon from East Liverpool. As the bride was not a resident of the county they could not secure a license as expected, but Judge Boone called Judge Aungst, of Canton, and secured one for them. After the marriage they drove back to Rock Springs. They had not informed any one of their intentions and sprung quite a surprise on their friends.

SUED FOR TAXES

Treasurer Smith Alleges That a Gas Company Owes \$2,774.

Lisbon, May 7.—(Special)—Charles E. Smith, as treasurer, has entered suit in common pleas court against the Bridgewater Gas company, of East Liverpool, claiming that the company owes the county \$2,774.50 for taxes on personal property.

EAST LIVERPOOL GUN CLUB GROUNDS.

The East Liverpool Gun club will hold its fifth annual tournament on the Chester grounds September 10. Arrangements are being made to have the most successful ever held.

MISS LETITIA STEVENSON, REPORTED FIANCÉE OF CAPTAIN HOBSON OF MERRIMAC FAME.

According to rumor, Captain Richmond Pearson Hobson, hero of the sinking of the Merrimac in the channel of Santiago harbor, has unconditionally surrendered to that sly little strategist, Curial. Miss Letitia Stevenson, youngest daughter of ex-Vice President Stevenson, is the lady who is said to have been selected as a life partner by the gallant captain. Miss Stevenson is 21 years of age, while Captain Hobson is 32.

A FIERCE FIRE IN SALEM STORE

Caused by an Explosion and Threatens Great Damage in Heart of the City.

CO-OPERATION MUCH DISCUSSED

Trades Council Talks of a Store on the Mutual Benefit Plan.

THE LIGHTING OF A MATCH AN OUTLINE IS SET FORTH

Started a Blaze Which Ran Like Lightning, Dooming the Building. More Explosions Feared And Neighboring Buildings in Danger.

And It Is Probable That the New Experiment Will Soon Be Undertaken—Progress on Labor Day Program—Other Topics.

Salem, Aug. 7.—2:45 p. m.—(Special)—An explosion set fire to the large two story hardware store of A. M. Carr & Sons in the heart of the city this afternoon. That building appears to be doomed and others near it are in great danger. The loss will be several thousand dollars. Firemen make poor progress in fighting the fire on account of the dense smoke and the fear of other explosions.

C. S. Carr was in the cellar getting oil when a lighted match set the oil barrel ablaze. An explosion followed and the flames ran like lightning over the building. W. M. Mulford & Co., plumbers, and City Clerk George Holmes, roofing, are in the same building. The city books are in Holmes' store. Above Carr's are the offices of Attorney K. L. Coburne.

Adjacent buildings are the furniture store of D. E. Mathers and the gentleman's furnishing store of J. Atchison & Sons, which are in imminent danger. The buildings are among the finest in town.

Wedded at Leetonia.

Lisbon, May 7.—(Special)—Harry Blair Price and Pearl Meek, both of East Liverpool, secured license today and drove to Leetonia, where they will be married by Rev. Mr. Jones.

Golf Club Forming.

A golf club is being formed in the city. Nearly all of the members have been obtained and negotiations are now on for the purchase or rental of a suitable field.

Trades and Labor Council held an unusually long session last evening, but little business of importance was transacted, the time being devoted mostly to the discussion of several matters which have been before council for some time.

The committee appointed to determine the best plan for starting and operating a market house and a co-operative store made their reports.

No progress had been made by the market house committee, but those handling the co-operative store question

stated that they had held a number of meetings since the last meeting of council and had a dozen or more plans under consideration.

The one that they had decided upon as being the most promising to the patrons is one that is

being followed in a few other cities, and it met the approval of council.

According to the plan as explained

the store will be backed practically by

a stock company, the members of

which will be only those affiliated with

the Trades and Labor Council.

A deposit of \$25 will be required of each

stockholder, \$15 of that amount will

be used to purchase the needed

amount of groceries, etc., to fill the

store. The remaining amount will be

held back and at the end of two weeks,

it that is liquidated, another like

amount will be due from the stock-

holders. The \$10 only applies to those

who don't run bills to exceed that

amount in two weeks. Those running

larger bills will be expected to pay

more. The only advantage in the plan

is that after having made the first pay-

ment the stockholder will always have two weeks paid ahead.

It is thought that at least 200 stockholders can be secured, which will result in the full equipment of the store and none will need go elsewhere for necessities. The goods will either be sold at such a profit that dividends can be paid to the stockholders or at cost prices, it is very likely that the latter plan will be adopted. By it the members get the full benefit. There is a probability of the above plan being adopted, but whether it is or not some plan will be tried in the near future, and if the experiment fails nothing will be lost. The people affected have nothing to lose in the venture and everything to gain.

The grocers and butchers were the subject of conversation for quite a while, and as at previous meetings they received nothing but unfavorable opinions.

Leroy Orr, as chairman of the committee appointed to arrange for the Labor day exercises, reported that everything was progressing nicely and that the outlook for a grand demonstration is encouraging. He recommended that council appoint a committee to purchase the hats to be worn upon that day. The following were appointed: Eugene King, A. S. Coleman and George Haile.

Delegate George F. Mackey, of the American Federation of Musicians, addressed council in reply to the question whether there is more than one union of musicians. From his remarks it seems that there is, but council decided that the American Federation of Musicians could only be recognized, the others not being affiliated with the American Federation of Labor.

Council received a cordial invitation from the Carpenters' and Joiners' association to attend the picnic to be given at Rock Springs park on next Saturday. The invitation was extended by Delegate G. B. M. Beatty.

New delegates were qualified as follows: Local union No. 254, Julia Hickey, Lizzie Fowler and Lulu Shingle; Local union No. 16, Homer Lampson and Thomas Doherty; Local union No. 292, H. S. Plankinton.

CONFICTING ORDERS

AND IDEAS AS TO THE LAYING OF SIDEWALKS.

A Tangle Which the City Council Will Be Called on to Straighten.

Several happenings incident to the recent orders of the city council to property owners to pave or repair their sidewalks will have their sequel at the next regular meeting of the city fathers.

There seems to be much contention between the contractors and the street committee of council. The contractors are acting in compliance with orders from the property owners, and as a result both are being censured and threatened.

The committee has an idea as to what the grades on the streets are and wants the sidewalks laid so that they will be uniform. Everything would work smoothly if the adjoining property owners would always agree on what the grade is and then have the walk laid to correspond.

One instance illustrates the trouble. Two men on Fifth street were given an order to pave. Each paved to suit his notion, regardless of the legal grade. One of the walks is at least four inches lower than the other. A member of the committee objected yesterday upon making an examination and ordered the contractor to make the sidewalk coincide with that adjoining. The contractor refused and states that if he is compelled to make the change he will fall back on the city for payment.

Several like cases are reported and council will be compelled to take some action on the matter at the next meeting.

CAR RAN BACKWARD

And Women Passengers Began to Jump Off And Scream.

Pandemonium reigned on an East Liverpool railway street car early last evening when the car, in making the ascent on Washington street, suddenly stopped and started on a backward course down the hill. The electricity evidently ceased charging the trolley wire. As the car started a dozen or more women began to scream and several of them ran in terror to the rear end and jumped to the street.

Before the car stopped, those that had remained sitting saw that there was really no danger and the car was again started up the hill without further trouble.

WORDS AND BLOWS NEXT

Followed by a Lawsuit Before a Justice of the Peace.

EXCITEMENT IN CALCUTTA

In the court of Justice Moore, at Calcutta, suit has been entered by James Nepper against Edwin S. Faulk, for \$85 for alleged damage done to the corn field and other gardens of Mr. Nepper by Faulk's sheep. This case is to be heard Aug. 18.

Mr. Faulk is a step-son of Mr. Nepper. That, however, did not prevent the sheep of Faulk eating truck that grew in Nepper's garden. It seemed that Mr. Nepper raised very good corn and other green stuff, and the sheep, learning this, proceeded to help themselves, although it was the intention of Mr. Nepper to sell all his corn and other truck in the market of East Liverpool.

While Mr. Faulk had been filed against him, he having the name of being one of those shrewd farmers, for which Calcutta is noted, told a friend, who is also a farmer named John Givens. Mr. Givens acted as a sort of viewer, witness, or any other term that would suit the case, and in company with Mr. Faulk, went to the green fields of Mr. Nepper to ascertain whether any damage had really been caused by Faulk's sheep. The journey began last Tuesday morning, and within two hours the trip abruptly ended much to the disappointment of Mr. Faulk and his viewer or witness, Mr. Givens.

The journey to the farm was a pleasure. At the farm matters were different. Mr. Nepper saw Faulk and his viewer coming to look the fields over, and this fact made him angry. He got fighting mad. Relationship cut no ice. The idea that Faulk should think that no \$85 worth of damage had been done to his farm and crops made Nepper indignant.

"Now," said Mr. Faulk to Mr. Givens, "I think Nepper says the sheep went in the corn field this way, and that they ate various garden truck in yonder patch. Suppose we see just what damage was done by my sheep."

It was but a short time afterward until Nepper and Faulk and Mr. Givens were face to face. They talked and talked. There were many words used. Some of the people of Calcutta say more than words were used, and that fists were brought into play. It is claimed Mr. Faulk's hat was damaged, and it was a new one at that. After a short time the debate ended, but the talk about it is still going on in Calcutta and vicinity.

Nepper's case against Faulk will be heard soon by Justice Moore. After that more law is expected by the peaceable farmers of Calcutta.

A NOISY ENGINE</h

WITH THE WORKMEN IN THE CLAY PLANTS

THE MANUFACTURERS' VIEW.

From what can be learned the manufacturers are in no happy mood over the recent action of the finishers in leaving their positions. The finishers have a trade, all to themselves, and when they stop work it is not long until their action causes other departments in the pottery to stop work. A prominent manufacturer last evening said: "There is not a shop in the city but has a large amount of orders on hand, and some of these orders call for immediate delivery. Ware for these orders, at least in some instances, is now being made in the clay shops and the finishers' act has held the order back. I sometimes think that in some instances the jiggermen are themselves to blame for this dispute. Only a short time ago a jiggerman if he would learn of a finisher who was more rapid at her work than the one he was employing would discharge the one working for him and offer the more speedy finisher more money to come and work for him. Then the girl that was laid off, hearing that her sister finisher was receiving more money, reported that fact to her local and the local said she should receive as much as any finisher in the city. It is a fact that the faster a finisher works the more money she receives and the more money the jiggerman makes. The slow finisher is claimed to be a detriment to fast jiggerman. It is said that the instance is frequent, that when the two weeks' wages of the finisher are about \$30, the wages of the jiggerman, after he has paid his boys, are not much more than \$25. As to the expenses of the finisher for tools, a finisher spends from 75 cents to \$2 a pay for them. If this comes from the wages of a jiggerman who is making but \$35 a pay, his net pay is not very much larger than that of his finisher."

PEORIA LETTER.

The plant here a few days ago shipped a carload of "oatmeals," and the firm is still rushed for more of the same class.

Everything is running smoothly at the plant of the Crown Potteries company in this city, and the prospects

for a continued long run are bright. The clay hands have been compelled to loaf for a few days on account of a shortage of boards, but are working again.

There seems to be a shortage of biscuit kilnmen at this plant, and it is generally understood that the company will increase the force on this bench before long. It is this shortage of workmen that caused a shortage of boards.

Patrick Rafferty, a well known kilnman of East Liverpool, has taken a position on the glaze bench at this shop. He commenced work a few days ago.

Baldy Miller and Dan Roseberry have arrived here from Evansville, looking for employment.

Walter Smith, a popular employee of the local pottery, who had his hand broke several weeks ago, is recovering, and a few days ago physicians took off the plaster cast. He will return to work next Monday.

Mike Fennell, bench boss on the glaze end, who has been suffering with stomach trouble for several weeks, has recovered, and is now able to be at his work.

WHEELING LETTER.

The strike at the Riverside sanitary plant is still on, with no immediate prospects for a settlement. The firm will give in to one part of the dispute, but refuses to reinstate Beswick. The men claim the firm is victimizing Beswick, although no fault can be found with his work. The entire pottery is idle. Yesterday the kilndrawers were compelled to stop work on account of having no ware. So far the firm has failed to ask for a conference with the men, and the men propose to stand firm in their demands.

George Cartridge, who has been employed as a presser at the Riverside, has left this city and has taken a similar position at the plant of the Steubenville pottery.

William Ayers, a well known presser of this city, has given up his bench and in a few days will leave for New Castle, Pa., where he will take a position as presser at the New Castle sanitary shop.

ing potteries are in full operation, and judging from the present indications, these three shops will continue to run until the first of the year at least.

AS TO WHEELING.

The situation at the Riverside sanitary pottery at Wheeling is becoming interesting. A strike has been sanctioned in the clay department, and sympathy is being shown by the girls employed there. Why does the firm refuse to take back the old employee who formerly carried the clay to the pressers? The men are firm in their demand that he be taken back and paid for this work by the firm, in conformity with the agreement recently made between the Brotherhood and the sanitary manufacturers. The foreman asked Beswick to continue as clay furnisher, and upon his refusal to do so, discharged him. He had been doing the work of two positions, and had not been paid by the management. This has caused contention in the pottery for nearly two weeks.

ASKED FOR CONFERENCE.

Although the statement was made officially yesterday that it could not be stated when another conference between the Brotherhood committee and that representing the Western Manufacturers' association would be held, this morning President Hughes said that another joint conference between these committees would be held in the rooms of the Potters' club this evening. It is said from outside sources that this conference was requested by the manufacturers, although this statement could not be verified by any member of the manufacturers' committee this morning. It is intimated that a settlement will be reached at the meeting this evening.

WILL SOON MAKE PIPE.

The plant of the East Ohio Sewer Pipe company, at Irondale, is almost completed, and pipe making will be started in a very few days. The building have all been finished for some time, and the machinery is virtually all installed. Several down-draft kilns have also been built. It is some months since the building of this plant was started, but considering the extent of the undertaking very good progress has been made.

BACK TO WORK.

A. J. Angle, one of the kiln firemen at Laughlin's plants in the East End, has returned to that part of the city after spending several days at his former home at East Palestine. Mr. Angle states that the East Palestine potteries are now in full operation, and the outlook for a good fall run for the employees is very bright. Mr. Angle may remove his family to this city before long.

UPSET ACID.

H. R. Thompson, assistant decorator at Laughlin No. 2, met with an accident a few days ago that is depriving him of the use of his left hand. He was carrying some acid, and the can accidentally upset, spilling some of its contents on his left hand. There was enough to cause a severe burn. He is carrying his arm in a sling, and will not be able to use it for several days.

PRETTY DECORATIONS.

It has been a long time since the local potteries has presented to the trade at large ware that is so handsomely decorated as that of today. A local salesman, who handles nothing but decalcomania, said today that his firm was making a specialty of preparing designs especially adapted to pottery, and was presenting something more pleasing than ever.

THEIR NEW CAPS.

The jiggermen at their meeting Tuesday night decided to wear caps while in the Labor Day parade. This local will make an especial effort to capture the prize that has been offered to the local that makes the best display of its trade in the parade. A committee now has this matter in hand.

EVANSVILLE SLOW.

Within the past few days letters have been received in this city stating that the pottery at Evansville is running very slowly, and many of the workmen are leaving the city for other pottery towns. The plant is operated by the Crown Pottery company the same firm that is operating at Peoria.

RECOVERED FROM ILLNESS.

Jess Wright, one of the oldest employees of the East End plant of the American Sewer Pipe company, has recovered from his recent attack of quinsy, and yesterday morning resumed his duties as shipping clerk at the work.

POTTERY PROJECT.

There is considerable interest in the

proposition to build a small pottery plant at New Cumberland. The matter has gotten into the United States Potters' Journal and other papers and some citizens have received letters making inquiries as to what the citizens will do.

TOPPED OUT KILN.

The new decorating kiln at the Wallace & Chetwynd, which has been under course of construction for several days, has been topped out. Work on the small building that will be used as an inclosure for this kiln will commence at once.

RETURNED TO EAST END.

Oscar Kraft, for many years a resident of the East End, well known in all the local potteries, has returned to the East End. He had been in the city but one day when he secured a position in the East End shop.

SETTLED.

The strike at the Wellsville China company's plant has been settled and the objectionable foreman of the kiln-drawing department is there no longer.

AMONG THE POTTERIES.

Isaac Bailey, lately from St. Mary's, W. Va., has a position as a pin runner at the Louthan Supply company.

The kilnhands at the Edwin M. Knowles pottery will have to loaf a couple of days on account of getting behind from the finishers' work.

Harry Jenkins, a jiggerman at the Chelsea pottery, New Cumberland, has moved his family to New Cumberland from the East End.

Jack Thompson, a printer at Laughlin No. 2, is visiting Sebring friends.

The potteries find considerable difficulty now in obtaining clay, owing to the crush of freight traffic on the Pennsylvania lines. They used to obtain a car of clay in two weeks, but now arrival is altogether uncertain.

TRADING WAS MOSTLY IDLE.

Market, Yesterday, Continued to Demon-strate Underlying Financial Strength.

New York, Aug. 7.—Yesterday's stock market continued to demonstrate in a negative way the underlying strength of the financial and business situation in the country. Trading was mostly idle. A demand for the Gould southwesterners was the most conspicuous feature of yesterday's trading. The very heavy buying of Texas and Pacific was by the same brokers who have been active in Missouri Pacific for some time past, and the response of other railroads in the group was purely sympathetic. The operations were supposed to be for account of the same pool which has followed the upward movement in these stocks from the start. Hocking Coal made a jump on inspired intuitions that large new interests were to enter the property and expand its field of activity. Hocking Valley was bought on the advantage the bituminous coal trade is enjoying from the paralysis of the anthracite trade.

A Safe Cure for Headache.

Have you ever felt depressed after taking a headache remedy, and do you know that if it contained a Hall's Tonic it could cure without that depression? Clinic Headache Wafers are a Heart Tonic, never depress, never fail, best and safest cure in the world. Easily taken. Absolutely harmless. 10 cents, all druggists.

Women and Jewels.

Jewels, candy, flowers, men—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous effort to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious conse-quences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get this reliable remedy at Charles F. Craig's.

At last that part of Pennsylvania avenue between First and Virginia avenue is to be built up. The founda-tion for a new residence to be built by Mrs. Pinkerton, of Fourth street, at the corner of Pennsylvania avenue and Virginia avenue, has been completed, and it would not be surprising to see additional residences built within this square, one of the most prominent in the East End.

The wonder is that this portion of the avenue has not been utilized before this for building purposes.

Went to Lisbon to Wed.

Instead of getting married in the East End, or at their home, a young couple thought it would be rather romantic to drive to Lisbon and marry. A ride through the country is rather delightful at this time of the year, and that is why Harry Price and Miss Pearl Meeks thought of the idea of going to Lisbon, where they proposed to be married today. The young couple are well known in the East End, which place they will make their home.

Many Ball Games.

There will be all sorts of base ball games in the East End Saturday afternoon. A championship game between the team from Dixonville and that of the East End will be played at Columbian park Saturday afternoon. Another game will be played on the common, south of the National pottery, between the Turners and Handlers of the National and those at the two plants of the Laughlin company. Both games are guaranteed to be good ones.

Robbed of a Rooster.

Adam Servilius is a kilnman at an East End pottery. A few days ago he purchased a fancy rooster, paying \$1. He took the bird to his home and felt elated, thinking he had captured a prize and at a cheap price. Now the rooster is missing. Who took it, or where is now is no person knows. The loss of the rooster has made its owner sick at heart, and for three days he has been unable to work.

Taking a Vacation.

The kiln placers at the East End plant of the American Sewer Pipe company last evening completed their work until the factory again resumes operations, which is not expected until one week from next Monday. In the meantime the kilndrawers and firemen will be compelled to remain on duty for a few days longer, or until all the kilns that were placed yesterday are fired and drawn.

Spiritualists to Meet.

A meeting of the spiritualists of this city will be held tomorrow evening at the residence of M. H. Harsha, on Ohio avenue. It is expected that 25 to 50 persons will be present. The meeting will be in charge of a spiritualist leader from Pittsburgh named Reymar. It has been some time since a meeting of this sort has been held in the city.

Mrs. H. E. Hall, who has been visiting friends in the East End for several days, left yesterday for a short stay with friends at Sebring. She was accompanied that far by Miss Pearl Finley, who will spend a few days at the home of Robert Finley. Mrs. Hall is on her way to Wooster, where she will join her husband, and then they will proceed to Mansfield.

EXCITING RIDE

Horse Driven By Bert Sebring Runs Off on a Via-duct.

Mr. and Mrs. Bert Sebring, of Sebring, had a thrilling experience and narrow escape in Alliance Monday evening. They were driving south across the viaduct when the horse became frightened at an engine in the railroad yards below. The animal wheeled around in such a manner as to catch the left front wheel of the buggy on one of the iron pillars of the bridge. The spindle was broken off, thus allowing the buggy to topple forward against the horse. This frightened the horse more and it started down the south approach of the viaduct at great speed.

Persons who saw the affair felt sure the occupants of the buggy would be killed. At Ash street Mrs. Sebring was thrown out and rendered unconscious. The horse continued across the street and rounded up against a building. Mrs. Sebring, after remaining at the hotel all night was able to return home Tuesday morning. Mr. Sebring was considerably shaken up and bruised. The horse was cut about the legs, but not seriously. The buggy was badly wrecked.

"I used one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take.

It has been some time since a meeting of this sort has been held in the city.

THE POPE APPROVES.

Archbishop Ireland's Stand As to Philippine Friars Correct.

SELLING OF LANDS DISCOUNTED.

War Department Has Considered This Feature in Dealing With the Problem—Taft Touched on This Feature Before Philippines Committee.

Rome, Aug. 7.—The vatican has shown much interest in the Associated Press interview with Archbishop Ireland, in St. Paul, on July 22, in which the archbishop said the pope and other Roman authorities were delighted with Governor Taft and with the course of negotiations between him and the vatican. The vatican officials agree that Archbishop Ireland clearly and happily set forth the true spirit of the intercourse between the vatican and the United States.

Washington, Aug. 7.—The war department has known for some time that portions of the friar lands in the Philippines have been disposed of to companies, and all of the recent negotiations conducted by Secretary Root have carefully taken into account any contingencies which might arise through these transfers. The facts were fully communicated to the government here by Governor Taft. The latter also explained this matter of alleged transfer to the senate committee on the Philippines. In the course of his evidence before the committee Governor Taft said in answer to the question whether the friars were in actual possession of the lands:

Hold Majority of the stock.

"Generally, in order to avoid hostilities, they have transferred their titles to companies and retained the majority of the stock."

As to the bona fide nature of the transfers to certain companies, Governor Taft said that he had cross-examined the heads of religious orders. He added:

"I think after you have read the evidence it will become obvious that while it is true that transfers have been made, they have been colorable in this sense—not fraudulent; I do not say that—but they have been colorable in the sense that the transfer made was for the purpose of giving the public the impression that the friars had parted with their titles, and thus facilitating the collection of rents, while in fact the ownership is still retained. That is my information as to the condition of the titles now, in spite of a protest filed by some stockholders with respect to the ownership of some haciendas."

NOT AGAINST CATHOLICS.

Sentiment as to Administration's Philippine School Policy.

Chicago, Aug. 7.—During the meeting of the convention of the Federation of Catholic Societies yesterday one of the features was the reading of the correspondence between the executive committee of the federation and Secretary Root on the question of education in the Philippines. Resolutions that had been sent to President Roosevelt, charging discrimination in the selection of school teachers for the Philippines, were read, and the response of Secretary Root to the effect that no such discrimination had been made on account of religious belief.

A discussion as to the best course to pursue in the Orient followed. The general tenor of the convention seemed to be that no intentional discrimination against Catholicism had been made by the administration. Particular stress was made by the delegates on the enactment of laws for the islands by which certain hours have been set aside during school session when priests may speak to the pupils on religion.

THIRTEEN PERSONS KILLED.

Twenty-Five Injured in a Railroad Collision, Near Rhodes, Iowa.

Des Moines, Ia., Aug. 7.—It was understood here that in the railroad collision near Rhodes 13 were killed and 25 injured. The dead, so far as ascertained, are Engineers Brannan and Marchkress, a fireman, name unknown, who died from injuries, and 10 laborers. Ten of the worst injured arrived here at 12:30 this morning and were taken to a hospital.

TRAIN ROBBER KILLED.

Met Death in Holdup on C., B. & Q. Highwaymen Got \$2,000.

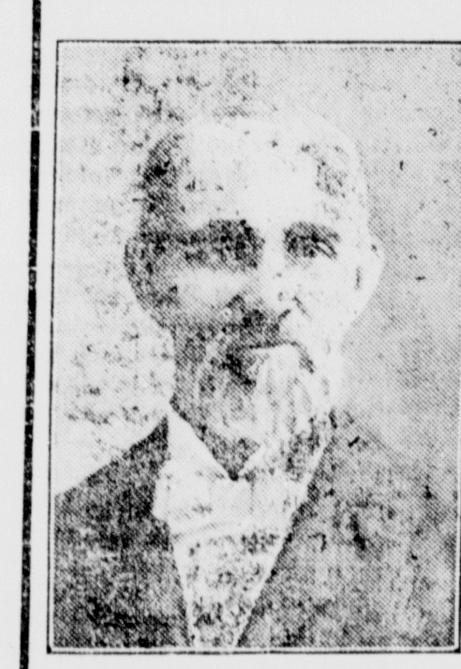

Mr. Carroll, Ills., Aug. 7.—One of the highwaymen who held up the Chicago, Burlington and Quincy vestibule train near here Monday night was killed, being shot above the eye and also in the leg. He met death while in the engine, and his body was dumped to the ground by his companions as they sped away. Express Messenger Bly claims to have done the shooting, but it is thought the man was accidentally killed by his companions. Six sacks of money containing \$2,000 were secured. There were eight robbers.

The vacationists who stay at home are finding golden sunsets, cool breezes and other things that their absent brethren pay high for right at their own doors. East Liverpool as a summer resort has claims superior to many more widely advertised localities. For instance, there are verdur-clad hills, as beautiful as the mountain regions offer; water in abundance, suitable for boating and bathing purposes; springs that afford a better beverage than some that are more famous, besides picnic resorts par excellence and unlimited opportunity for hunting and fishing. Those compelled to stay at home can console themselves with the reflection that it is easy to go farther and fare worse.

Somebody is lying about Bryan or else he is losing his mind. After his repeated refusals, wholly voluntary, to be considered in the light of a presidential candidate, a story comes out of the west that the perpetual talker now says he would accept the nomination if it were tendered him. Of course, he would; but the simon-pure Democrats will see that it is not tendered. Bryan has never been within a million miles of the presidency; but he has been nearer to it than he will ever be again.

The Billy Mason party in Illinois is not likely to be either large or respectable. At all events, it will include very few Republicans. Members of the old party in Illinois have seldom been flappers, and they certainly have no reason to flop to a man who criticised McKinley and did all in his power to make the late president's difficult tasks still more difficult. True Republicans have seen and heard all they want of Mason. Out he goes, and out he stays.

Salem, Toronto, Steubenville, Wheeling, and numerous other neighboring towns have boards of trade which are going after new industries and landing them. East Liverpool, capable of as much enterprise as any or all of them, allows undertakings of vast moment to go to its neighbors, simply because there is no organization to work for its interests. Is this condition to be allowed to continue indefinitely?

A new primary election law should be made a part of the municipal code which the legislature in extra session, will enact. A clean, clear-cut primary law is of greater importance to the

cities of Ohio than the question of board or federal plan. The legislature will have plenty of work to do, of course, but it ought not to take its concentrated wisdom long to fix this important matter.

Bandit Tracy died with his boots on, yet he died a most inglorious death. Civilization has progressed fast and far, and the bandit industry is played out, even in the erstwhile wild west. Tracy made his mistake in acting on a different theory.

The Youngstown Democratic organ admits that Kennedy's elections to congress is "probable." What a reputation as a prophet that editor might have got had he lived in Bible times!

A Texas convention took 6,071 ballots to nominate a congressman and then adjourned, its work uncompleted. Harmony is not roosting in Democratic districts this year.

Isn't it curious that no Democrat has thought of the unscarred availability of the Hon. Adlai E. Stevenson, who can run with anybody and on any kind of a platform?

Now if Russell Sage would turn in and imitate Carnegie for a while, there would be no difficulty in convincing many people that the age of miracles is not past.

Free silver failed as an issue, the Democratic party is switching back to free trade, which is as injurious to the people's interests as the former would be.

The Pennsylvania railroad is expected to take 5,000 persons to Atlantic City today. The quota of East Liverpool was more than filled.

The coronation bids fair to come off on schedule time at last, though it won't be remarkable for fuss and feathers.

Toosevelts Witnessed Target Practice

Green Point, N. Y., Aug. 7.—After witnessing an interesting target practice on board the Mayflower, in Block Island sound, yesterday, for which he had offered a prize, President Roosevelt left on the naval yacht Sylph for Cyster Bay, where he expected to arrive late last night. He and Mrs. Roosevelt were not to leave the Sylph until this morning.

WHY THEY FAIL.

Some Advertisers Expect Too Much in the Beginning.

The reason so many advertisers fail to get satisfactory results is because they begin with an exaggerated notion of the returns they should get from the start. They run for a few issues, results do not meet their expectations, they become discouraged, say it's no use, it doesn't pay, and drop out. No business was built up in a day, and, in fact, it is seldom any man can say that during his first few years in business he any more than made his expenses and considers himself very lucky if he does as much.

A salesman is not expected to sell much the first time he covers new territory. His initial trip is merely introductory, and he has to be on the road for a long time before he will be of real value to his employers. It is the same with advertising. The first ads. are introductory, and to bring results they must be followed up persistently and systematically. It is a cumulative force, gaining at each issue, like an avalanche, which if left unchecked carries everything before it.

But to get these results the advertiser must have an article of thoroughly demonstrated practical value, unbounded faith in its merits and go in with the determination that before he is through he is going to impart the same faith to others.—Medical and Drug Advisor.

Useful Purposes of Rosin.

There are many useful purposes to which rosin can be applied outside of those of general practice. As a non-conductor of heat it is used in the protection of water pipes, particularly in crossing bridges, where the pipe is laid in the middle of a long box and the whole filled with melted rosin. Rosin is also used in supporting basement floors in machine shops, which may be laid over some dry material, as spent molding sand, which is carefully leveled off, and the plankings laid upon temporary supports separating it about two inches above the sand.

WELLSVILLE

COMING PRIZE FIGHT

Bunting, the Wellsville Man, Going Through a Rigid Course of Training.

Edward, better known as "Skinny" Bunting, the local lightweight pugilist, has made quite a stir among the local sporting fraternity this week. In his forthcoming contest with Lawrence Lutz, the Beaver Falls boxer, who is making his headquarters in East Liverpool, Bunting is confident of victory. The weight agreed upon, 142½ pounds, called for fasting and vigorous training on Bunting's part, as his weight was about 14 pounds in excess of the limit. By careful training, however, he surprised his friends by tipping the scale at 145 last night. His weight will be brought still lower, and then he will rise to the fighting weight by slow degrees. Stockton and Finley, his trainers, are jubilant. Money is being placed very lightly on the fight. Odds were asked by Bunting's backers, while the Lutz men want even money.

Terry Carman, Lutz's manager, is in Wellsville daily, watching Bunting's progress closely. He stated to day that Lutz is not training hard and has no sparring partner nor assistants, not needing either. He says he is a boxer with a record of one defeat, three draws and has whipped nine men. The fight is to be pulled off, Carman says, within five miles of East Liverpool.

Funeral of William Snowden.

A multitude of friends and relatives were present at the Snowden obsequies this afternoon. William Snowden was one of the best known men in Wellsville and was universally respected. Rev. H. W. George, of the university of Wooster, a lifelong friend and associate of Mr. Snowden, conducted the funeral services. Rev. T. V. Milligan assisted. The pall bearers were Dr. J. W. Hammond, Prof. J. L. McDonald, Dr. B. R. Parke, Dr. A. Noble, T. B. Stevenson and J. C. Catlett. Burial was made in Spring Hill cemetery.

Many Excursionists.

Many persons from here took advantage of the excursion to Atlantic City this morning, and when the train pulled out a good sized crowd accompanied it. Among those who went were Albert and Henry Goetz, who will also visit New York and Philadelphia; David Mannist, who will visit in New York; Ed Matthews, who will take a vacation from work at the steel mill, and Misses Nellie Kelley and Eula Pickering.

Miss Grace Kelley, daughter of Frank Kelley, is sick.

Dr. A. L. Robinson was at New Castle, his old home, today.

Mrs. Samuel Clark and two children are visiting in Cleveland.

John Morris, a brakeman, is sick at his home on Fifteenth street.

Mrs. William Lawson and Bessie Brannan are Pittsburg visitors.

Thomas McCann and John Hannon, of Toronto, were in the city today.

Miss Alice Springer, of Crafton, Pa., who has been the guest of her uncle, Captain John Todd, returned home today.

Mrs. Eva McClemmons, of Pittsburgh, is the guest of her father, T. R. Anderson, at the Oak Grove camp grounds.

Mr. and Mrs. George Ashley are in Jamestown, N. Y., visiting friends. They will go to Lake Chautauqua before their return.

W. H. Sheets, roundhouse foreman at the Wellsville shops, is taking a vacation and will not report for duty for several weeks.

Ed Adams, of Commerce street, has been promoted from train caller to clerk, having his desk in the yardmaster's office in the Wellsville shops.

Louis Brookman, a mechanic employed in the air brake room at the railroad shops, has resigned and contemplates locating outside the city.

George Hirst, fireman on shifter 693, is still off duty and his substitute is taking his place. Hirst had his right hand hurt over a week ago, and it has swollen badly.

The new system of engine numbering is being adhered to in the Wellsville shops and each locomotive which leaves the round house after repair will be renumbered and the tender neatly lettered.

Albert McClellan, of Nevada street, who was badly injured in a yard smashup several weeks ago, is slowly recovering to the surprise of his friends, who feared he would never recover. In a few weeks he will go on duty again.

SHE UNDERSTOOD.

Mr. Tiff Makes a Statement That Causes Trouble.

"Is there anything in the paper?" asked Mrs. Tiff of her husband, who had been monopolizing the Evening Bugle.

"No," replied Mr. Tiff.

"It seems to me that you are taking a long time to read nothing. Suppose you hand it to me. Perhaps I can find something in it."

"Well, here is something which may interest you. A man in Chester refused to pay his wife's funeral expenses, and the undertaker sued him for the money. The court decided that a husband must pay for his wife's burial. What do you think of taking a case like that to court?"

"I should think the mean man ought to be ashamed of himself," declared Mrs. Tiff emphatically.

"So should I," assented Mr. Tiff. "The idea of a man not wanting to pay for his wife's funeral! I should have thought he would have been perfectly delighted to!"

"John Henry Tiff, what are you saying?" demanded the gentleman's wife.

"Oh, of course I didn't mean that, you know. I mean that he should consider it a sacred duty to give his wife a respectable burial and pay for the same cheerfully!"

"I understand perfectly what you are saying, Mr. Tiff. You tell me that you wish I was dead, that you would pay my funeral expenses cheerfully, that you would be perfectly delighted to have the opportunity—perfectly delighted!" were your very words, John Henry Tiff, and I think you are a wicked man!"

"Oh, now, look here," protested Mr. Tiff, "you know very well what I said wouldn't bear any such construction if you weren't so ready all the time to find occasion to scold me."

"You needn't try to defend yourself, for you can't do it. You said you'd think that a man ought to be delighted to have the chance to pay for his wife's funeral. It's enough to make any self-respecting woman go and commit suicide, so it is. And I'd go, too, much to your satisfaction. Oh, why, oh, why did I ever think that I could love such a wretch as you?"

At this point Mrs. Tiff put on his hat and walked out of the house.—Tit-Bits.

SOUTH SIDE

NO JURISDICTION

Opinion of Justice Ward in Case of Good vs. Elliott.

The hearing of John Elliott, charged by E. S. Good with swearing falsely in the late liquor case against Good, was called for trial before Squire James Ward, of New Cumberland, in city hall this morning. Elliott was represented by Attorney George Ingram and Good by Attorney O. S. Marshall, of New Cumberland.

Squire Ward granted a continuance in the case until 1 o'clock this afternoon, but intimated to a News Review reporter that he had no jurisdiction in the case, and this would be his decision.

His reason for not acting is that neither Squire Johnston or Mayor Shrader is ill, and only under such conditions could a justice outside their district act in cases pending. He says the West Virginia code is very plain on this question. It is probable that a new warrant will be sworn out and the case heard before either Squire Johnston or Mayor Shrader.

CUPID AT HIS PRANKS.

Beautiful San Francisco Girl to Wed J. D. Spreckels, Jr.

Society folk in San Francisco were

much interested in the recent announcement of the engagement of Miss Edith Huntington, daughter of Willard V. Huntington, and John D.

They studied for some time at Yale university and is the first of the body of students sent to America in the eighties to receive recognition befitting their accomplishments. Chinese officials have heretofore shown a marked dislike to these students because of their enlightened and progressive views.

Mr. Chen, or Sir Chen, as he is known in England, was one of four

parties of Chinese boys who were sent to this country about twenty years ago for the purpose of completing their education.

The idea of the Chinese government was to have the boys spend fifteen years in the preparatory schools and the remaining five years in the universities. Before Chen had completed his course, however, the plan was discontinued, and he was ordered home to China.

While Chen was minister to Washington some years ago Chen served as his interpreter during the three years of his incumbency. Later he was secretary of a special mission to Japan.

When the jubilee of Queen Victoria was celebrated, he held a similar position in the London embassy.

It was from Liang Chen Tung's

connection with the latter mission that he obtained his knighthood and received the title of "sir."

Last year when China sent a special mission to Germany to make formal apologies for the killing of Baron von Ketteler Chen was a member of the party. The new minister is about forty years old.

OUTLAW TRACY DEAD

Committed Suicide in a Wheat-field. After Being Badly Wounded.

HAD MADE A DESPERATE FIGHT.

Had Made Desperate Fight—His Aid Was Bad and He Failed to Add to His Long List of Victims—Boy Betrayed Him—Sketch of His Career.

Spokane, Wash., Aug. 7.—Harry Tracy, the outlaw, committed suicide, near Fellows, a station on the Washington Central railroad, about 50 miles west of Spokane, Wednesday night.

After baffling the officers of two states, after a wonderful flight of nearly 400 miles across Oregon and Washington, Tracy was hunted down by four citizens of the little farming town of Creston and a lone deputy sheriff. Sheriff Gardner and posse arrived in time to guard the wheat field through the night, but the work had already been done.

The posse that will share the reward was made up as follows: C. A. Straub, deputy sheriff; Dr. E. C. Lander, Maurice Smith, attorney; J. J. Morrison, railway section foreman, and Frank Lillegen. These men, armed to the teeth, set out from Creston Wednesday afternoon about 2 o'clock. They were working on the information of the Goldfinch youth, who had been forcibly made the companion of the Oregon convict for over 24 hours at the ranch of L. P. Eddy, on Lake creek, about three miles south of Fellows, a station on the Washington Central railway.

Tracy Fought His Pursuers.

Tracy fought his pursuers, but failed to hit any of them.

He escaped into a wheat field and darkness set in. The wheat field was then surrounded and daylight awaited.

Shortly after Tracy disappeared a shot was heard from the direction of the wheat field. No investigation was made, however, until yesterday morning. As soon as dawn came an entrance was made into the wheat field.

Tracy's dead body was found lying amid the grain, with his face turned toward the sky. His left hand, thrown over his head, held a revolver, which had inflicted the death wound. The thumb of his hand was on the trigger of the pistol. His right hand, thrown across the lower part of his body firmly grasped the barrel of the famous rifle. Death was inflicted by a revolver held close to the forehead. The top of his head was badly shattered.

Two bullet wounds on the left leg showed the cause of the man's despondency. One shot had broken the leg between the ankle and the knee. The other cut the tibial artery, which of itself was sufficient cause for death.

Harry Tracy escaped from the Oregon state penitentiary at Salem on June 9 in company with David Merrill, after killing four men, Frank W. Ferrell, G. B. T. Jones and B. F. Tifany, guards, and Frank Ingraham, a convict, who tried to prevent his flight. On June 28 Tracy killed Merrill near Napavine, Wash., shooting him from behind, and leaving his body in the forest, where it was found on July 15. On July 3, near Seattle, in a fight with a posse, Tracy shot and killed Charles Raymond, a deputy sheriff; E. E. Bresse, a policeman, and mortally wounded Neil Rawley, who died on the following day, and wounded Carl Anderson and Louis Fenfile, newspaper reporters.

Committed Many Feats of Daring.

Tracy committed many feats of daring in his flight, in the course of which he eluded various posses when apparently surrounded and held up numerous farmers, whom he forced to furnish food and clothing, and by threats of murdering their families compelled them to cover up his tracks. Perhaps his greatest show of daring was displayed on July 2 at South Bay, near Olympia, when he held up six men and forced four, including Captain Clark, of a large gasoline launch, to embark with him on Puget sound and pilot him up stream for 10 hours.

In 1901 Tracy murdered Valentine Hoge, a Colorado cattleman, and William Strong, a boy in the same state. A total reward of \$5,000 was offered for his arrest, Governor McAdoo, of Washington, offering \$2,500 for his capture, dead or alive. The state of Oregon offered \$3,000, and a brother of one of the guards killed at the penitentiary offered \$100.

At the time of his escape Tracy was in prison for burglary, he having been arrested in Portland, Feb. 6, 1901, after an exciting battle with Detective David Weiner. Tracy fired two shots at the detective, wounding him, and then jumped onto an engine with his revolver to the head of the engineer. He ordered the engineer to go ahead at full speed. The conductor stopped the train, however, and seeing that his plan had been frustrated, Tracy jumped from the engine and started to run. Half a dozen shots were fired at the fugitive, one of which took effect behind his ear, and he was captured. A month afterward, while being taken from jail to the court room, he exchanged several shots with the jailer, but was overpowered.

Affairs Of the Diamond

"Mugsy" McGraw the Man of the Hour in Baseball
Mike and Jack O'Neil

THE leading topic of conversation in baseball circles these days is the New York team and its new captain-manager, "Mugsy" McGraw. To say that a bombshell was thrown into the American camp by McGraw when he demolished the Baltimore organization, taking with him to the Giants many of the Orioles, is putting it mildly. While it was thought for some time that he would jump to the Nationals, his American colleagues had no suspicion that he would countenance the complete shutdown of his former nine. Ban

erable success. Cincinnati and New York had both driven him off the firing line. With the advent of real warm weather he struck his true gait and soon had all visiting batsmen badly puzzled.

Six Straight Victories.

Paired with his brother, Mike earned six successive sets of brackets. His success their first trip together was remarkable. He won a game at each stand, followed it up by tanning Pittsburgh and finally had his grand record punctuated by Cincinnati, the weakest aggregation of players he had battled with in a month.

Mike is a southpaw. He and his brother, two well bred, well groomed and well educated lads, are just now the idols of St. Louis fandom. And as for forming a brother battery, they are the warmest over the Ewings, "Buck" and John, and the Crosses, Monte and Lave, not excepted.

A little story is going the rounds in connection with the name "Joyce," which was assumed by Mike O'Neil last season. It is said that Mike, who was in college, became so fond of the game that he could not keep out of it and deserted his studies to become a baseball pitcher. Not wishing the faculty of the college or his relatives to know just what he was doing, he assumed the name Mike Joyce. Since he has been successful in the major league he is using his right name, but he has been unable to shake off the fictitious name of Joyce.

Colonel Rogers' Law Troubles.

As was expected, the Philadelphia National league club lost its suits against Lajoie, Bernhard and Flick in the United States court at Cleveland. No other result was looked for after the Dallas decision.

What made the matter worse than anything that had gone before in litigation was the contemptuous manner in which the case was treated by Judge Wing. Without even making a show of going into the merits of the cases, as other judges have done, he simply threw the cases out of court for lack of jurisdiction.

The only recourse of the Philadelphia club now is to begin new suits in the Ohio state courts. This the club will do, notwithstanding its previous rebuffs and the slim prospect of success.

When it comes to battling for what he regards as "a principle," Colonel Rogers has the gamiest bulldog skinned to death.

Unpopular Players Have Gone.

All of Hanlon's Superbas are liked. The last of the unpopular players has left Brooklyn. When the season began, it was not certain that Brooklyn had much of a team, but so skillfully have the men been handled by Hanlon that they have worked their way to second place, and there is not a spectator in the seats who is not thoroughly in touch with them. Now when the

Mike and Jack, the O'Neil brothers, were unknown to fame a year ago. Now they have a national reputation. Mike as pitcher and Jack as catcher form the strongest battery the St. Louis National league team possesses.

They are college bred youths, and it is only two years ago since both were battling on the grassy sward for their alma mater, Villa Nova university.

The boys bear a marked resemblance to one another. Both are put up on solid lines. Neither is six feet tall, though each lacks but an inch or two of that figure. The weight of the pitcher is about 175 pounds, the weight of the catcher eight pounds less.

The pitcher was signed by Captain Donovan for the Cardinals last August. O'Neil had done a little work for an Eastern league team and fared fairly well. All the old Phillies, particularly Donahue, told Donovan that he had made a ten strike when he landed the youngster. To show the boys from Philly that he was just as good as they said he was one of his first feats after joining the resident crew was to defeat the Quakers.

Jack O'Neil's Career.

John, or Jack, as the Cardinals call him, is the catching member of the family. A year ago there wasn't a professional team in the land that would give him a trial. Now every manager in the business would offer the boy a princely sum. And Jack's presence on the team happened by mere chance. With Jack Ryan and Arthur Nichols catching the best of ball, O'Neil was deemed too light of build and too inexperienced by Donovan, so early in May he was served with the regulation ten days' notice of release.

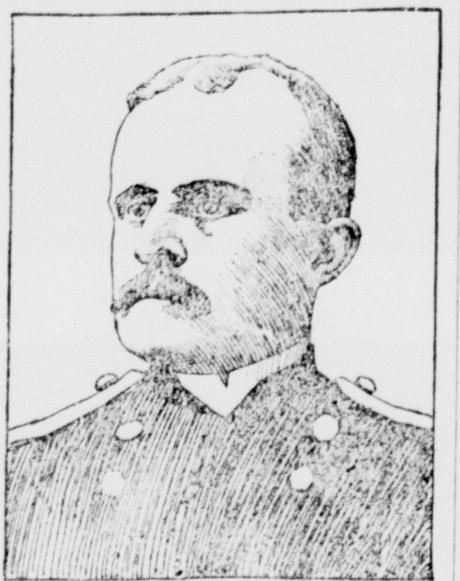

While he was sitting on the bench awaiting an offer Ryan and Nichols both received injuries that caused their retirement from the fray. Donovan had no one to work but Jack. The lad went to work with a will and showed right from the jump that he was just as good as either Ryan or Nichols. He caught several games before he was given the chance to double up with his brother.

Mike started the campaign with mis-

HOME AFFAIRS.

NOTES of a Personal Nature and of Matters About Town.

About to Build—Harry Headley will erect a fine new residence near the West End school building.

Says He Was Robbed—A Toronto man claims to have lost between \$40 and \$50 yesterday in a shady resort on Second street.

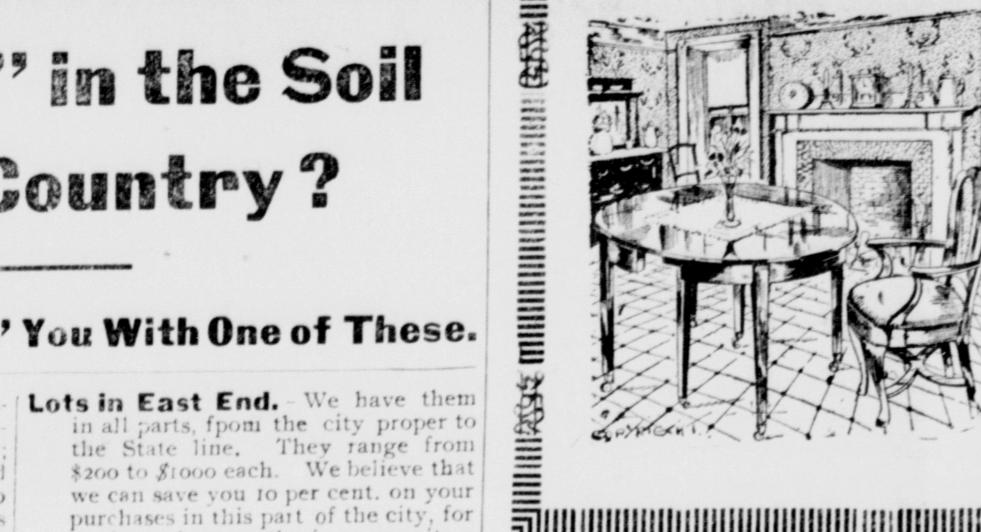

Awaiting Shipment—Quite a consignment of crockery ware is awaiting shipment at the wharfboat for down river points. The most of the shipment is decorated ware.

Sons of St. George—The Ohio, Indiana and West Virginia district meet of the Sons of St. George will be held at Canton on August 19, 20 and 21. East Liverpool will be largely represented.

New Members—A number of new members will be received into St. John's Lutheran church next Sunday. Services preparatory for communion will be held this evening in English and tomorrow evening in German.

Returned Cured—Joe Bratt, one of the best known residents of this city, who has been under treatment at Maximilian for some time, has returned to the city. He is in the best of health, and has completely recovered from his ailment.

Excavating Engines—The C. & P. is putting into use locomotives from other lines operated by the Pennsylvania company to clear its big freight traffic and in the different yards, especially at the Wellsville yard. A C. & M. engine was hauling the Conway and Bellaire local freight yesterday.

Lots in East End. We have them in all parts, from the city proper to the State line. They range from \$200 to \$1000 each. We believe that we can save you to per cent. on your purchases in this part of the city, for we have been gathering up quite a long list of lots and have many which we will sell under market. Don't buy until you have learned what we have and what our prices are.

A Few Samples:

Lot 100 x 100, Erie street, near the new School House. Lies as level as a floor. Our price \$100.

Lot 23 1/2 x 100—Virginia Avenue, 20 steps from Pennsylvania Ave., near Presbyterian chapel. Price \$500.

Lot 30 x 75—Pennsylvania Avenue, just north of Presbyterian chapel, corners on an alley. Price \$525.

Lot 30 x 70—Pennsylvania Avenue, adjoining the one described above. Price \$475.

Lot 30 x 100—Pennsylvania Avenue, Oakland Addition. Lies level, and is well located. Price \$375.

Lot 30 x 100—Etruria street, Gamma Addition. Lies perfectly level and in a fine location. Price \$300.

Lot 33 x 100—Erie street, opposite Columbian Park. Lies level and is built up on either side. Price \$400.

The way to judge the prices is to see the lots. Call on us at any time. We are at your service. It is our business to interest you in real estate and well we know that if our prices are not right we can't sell to you.

Knowing this we keep our prices low. Then again, we must have a large collection of properties, else we can't suit you and to this end we have a list of vacant lots alone that numbers over 1000. Don't think you can do better elsewhere until you see what we have. We hear of cases every day where purchasers could have saved money by having consulted with us before buying. Where your advantage is, we give you prices on so many different properties that are similarly located and situated, that you can pick out the bargains like ripe apples from among the green ones. Then we know a thing or two about real estate. This knowledge we impart to you, and whether you buy of us or not, you can profit by it.

therian church was held last evening. Papers of interest to the members were read. They were as follows: "Bible Questions," Mrs. Schriber; "Prayer," Miss E. Lupice; "Missionary Work in China," Miss Deats; "Lutheran Missionary Work in India," Miss Markle. This last paper showed that the work had in every respect progressed wonderfully and brought forth the hearty commendation of the pastor, Rev. J. G. Reinartz. An offering was taken for foreign missions. The organization is in a very flourishing condition, there being about 70 members.

FAMILY REUNION

THE MALEY'S WILL MEET AT THE OLD HOMESTEAD.

LARGE NUMBERS WILL GO FROM HERE AND WELLSVILLE ON SATURDAY.

A reunion of the descendants of Peter and James Maley and sisters, who settled on a section of land in 1838 at Summitville, out the C. & P. main line, will be held Saturday. There are about 40 of the descendants residing in East Liverpool and about 20 at Wellsville, and they number about 125 all told.

The reunion will be held in Morgan's grove near the old homestead, which is now owned in part, some 230 acres, by Mrs. Edwards Collins, a widow, formerly Miss Jane Maley, and Hugh Maley, another descendant.

No 335 westbound passenger on the C. & P. Saturday morning will have a special car attached to take those of the relatives who desire to attend from this city and Wellsville to Summitville. It will be attached to train No. 316 returning in the evening.

The gathering will simply take the form of a basket picnic, and no orator has been secured. The reunions occur annually. There will be dancing, singing and a ball game during the day and other amusements. A stationary platform is in the grove and a suitable orchestra will be provided. The reunion will be attended by only the Maley descendants.

DELIGHTFUL SUPPER

GIVEN DELMONICO CLUB MEMBERS, FOLLOWED BY BOWLING MATCH.

Members of the Delmonico club and invited guests to the number of sixty enjoyed a very delightful supper in the old dining hall at Rock Springs park last evening. This is an annual event given the members by Mrs. Miller, stewardess of the club, and all unite in extending her their thanks.

After supper all gathered at the bowling alleys and teams were chosen for a match game. Captain McCurdy's team carried off the honors by winning two of the three games. Most of the ladies present took part and every one returned home tired and happy.

WHEELING HERE TOMORROW.

The Wheeling base ball team and the locals will play in West End park tomorrow afternoon. A large crowd is expected to be present and the game will no doubt be one of the warmest of the season. Wheeling defeated McDonald yesterday 3 to 2.

A lot of patent kid extension sole Oxfords at \$2 and \$2.50. Closing 'em out.

HANNA COMES TO THIS COUNTY

The Senator Booked For a Campaign Speech at Lisbon This Fall.

VISIT TO HIS BIRTHPLACE

Will Be the First He Has Made in a Dozen Years or More.

COLUMBIANA COAL OUTPUT.

From a Staff Correspondent.

Columbus, Aug. 7.—During the coming fall campaign United States Senator Marcus A. Hanna will, for the first time in his career in public life, make a stump speech in Columbiana county. While in Cleveland last week Senator Charles C. Connell met and had a long talk with the senator, during which he exacted a promise from the latter to deliver an address in Lisbon some time during the campaign. The senator said that nothing would give him greater pleasure and declared he had a warm spot in his heart for Columbiana county and especially for Lisbon, and there are excellent reasons for assuming that he was telling the truth, for it was at the latter place that he first saw the light of day. He has not visited his birth place for a dozen or more years and he stated he would contemplate with pleasureable anticipation his return to that thriving little community. He suggested that the senator go through the formality of making requisition to the board of speakers of the Republican state committee for his services which will be at this body's command. Senator Connell will do this at once, and expects no trouble in getting Senator Hanna assigned for a date in Lisbon. Chairman Charles Dick and Senator Nicholas Longworth, of Cincinnati, who is one of the drafters of the code, will also be invited to attend and speak with Hanna.

Senator Connell says that the village code is practically completed. In brief it provides for the election of a mayor, treasurer, clerk and marshal and council members and three water works trustees. The solicitor is to be appointed by the mayor and council will make all contracts and grant franchises. An elective board will be provided for for municipal light plants. The senator stated that the line of demarcation between cities cannot be finally fixed until both codes are finished entire. He differs with Governor Nash on the dividing line. He thinks it should be 5,000, while the governor would like to have it put at 15,000, and under no circumstances under 10,000. The attention of the code builders was called Wednesday afternoon to one important matter which had been overlooked by them. It relates to the redistricting of the wards of cities and villages under the new code.

It was asked what the authority would be for the establishment of the boundaries, which led to the disclosure that this phase of the question had never occurred to the code builders. There is some talk that annual sessions will be returned to Senator Archer is said to have declared that when the legislature adjourned it would be to meet again in January of next year.

The annual report of State Mine Inspector J. E. Biddison, filed with Governor Nash Wednesday afternoon, shows that 20,321,290 tons of coal were mined in Ohio in 1901. The output of iron ore product was 41,325 and that of fire clay 1,337,181 tons. The production of coal in Stark, Columbiana and Mahoning counties during the year was as follows: Stark, lump, 792,555; nut, 161,780; pea and slack, 154,758; total, 1,049,093; loss compared with year 1900, 161,139. Columbiana, lump, 510,068; nut, 124,789; pea and slack, 157,676; total, 752,555; gain over year 1900, 74,425. Mahoning, lump, 39,245; pea and slack, 7,995; total, 52,755; loss compared with year 1900, 56,582.

In Columbiana 315,443 tons of coal were mined by machines, while but 38,141 tons were mined by this method in Stark. There are no machines in use in Mahoning. There are 76 mines in Stark, 50 in Columbiana and 32 in Mahoning. The number employed in these mines are as follows: Stark, miners, 2,359; day hands, 267. Columbiana, miners, 1,071; day hands, 326. Mahoning, miners, 213; day hands, 69. In Stark during the year 16 new mines were opened, six were suspended and

eight abandoned. Four were opened, five suspended and five abandoned in Columbiana. Two were suspended and one abandoned in Mahoning. In point of production, Stark was ninth, Columbiana tenth and Mahoning 22nd. There were 48 accidents in Stark, 20 in Columbiana and one in Mahoning. Three of the accidents in each of the first two counties were fatal. The deputy mine inspector made 17 official visits to Stark, 114 to Columbiana and 23 to Mahoning. There are 30 coal producing counties. Seventy-two persons were killed, one to every 282,240 tons of coal mined.

SURVEY FINISHED

FOR DOUBLE TRACK ON C. & P. TO WELLSVILLE.

Work Will Start Shortly on the Extra Track In This City.

The survey for the double track between Ralston crossing on the C. & P. and Wellsville, has been completed. The work of laying the track will begin shortly. The new improvement is one of the matters projected for the handling of traffic not only in East Liverpool, but in Wellsville.

It is not yet determined whether shifting crew will be placed in the city, though the present crew is working 15 to 18 hours per day.

DISCHARGING FIREARMS

The Charge on Which Dan Densmore Was Called Before the Mayor.

For violating section 19 of the city ordinance took Dan Densmore was arraigned before the mayor this afternoon. He was arrested at 11 o'clock last night on suspicion of discharging a revolver.

The officer states that Densmore, in company with three unknown fellows, were on Sheridan avenue when he heard a pistol shot. Running immediately to where the men were standing, he accused them, but they all denied having fired the shot and asked to be searched. The officer was about to believe that he was mistaken when he saw a gun lying at the feet of Densmore. Densmore pleaded not guilty, before the mayor, and will have a hearing Monday.

MARRIED IN LISBON

Picnickers Drove From Rock Springs to Be Made One.

Lisbon, May 7.—(Special)—Huber H. Helmrich and Jeannette L. Moore, both of Canton, were married in the probate court room yesterday afternoon by Rev. A. W. Lytle. The happy couple were attending the Lutheran reunion at Rock Springs park and drove to Lisbon from East Liverpool. As the bride was not a resident of the county they could not secure a license as expected, but Judge Boone called Judge Aungst, of Canton, and secured one for them. After the marriage they drove back to Rock Springs. They had not informed any one of their intentions and sprung quite a surprise on their friends.

SUED FOR TAXES

Treasurer Smith Alleges That a Gas Company Owes \$2,774.

Lisbon, May 7.—(Special)—Charles E. Smith, as treasurer, has entered suit in common pleas court against the Bridgewater Gas company, of East Liverpool, claiming that the company owes the county \$2,774.50 for taxes on personal property.

Miss Stevenson is 21 years of age, while Captain Hobson is 32.

A FIERCE FIRE IN SALEM STORE CO-OPERATION MUCH DISCUSSED

Caused by an Explosion and Threatens Great Damage in Heart of the City.

THE LIGHTING OF A MATCH AN OUTLINE IS SET FORTH

Started a Blaze Which Ran Like Lightning, Dooming the Building. More Explosions Feared And Neighboring Buildings in Danger.

Salem, Aug. 7.—2:45 p. m.—(Special)—An explosion set fire to the large two story hardware store of A. M. Carr & Sons in the heart of the city this afternoon. That building appears to be doomed and others near it are in great danger. The loss will be several thousand dollars. Firemen make poor progress in fighting the fire on account of the dense smoke and the fear of other explosions.

C. S. Carr was in the cellar getting oil when a lighted match set the oil barrel ablaze. An explosion followed and the flames ran like lightning over the building. W. M. Mulford & Co., plumbers, and City Clerk George Holmes, roofing, are in the same building. The city books are in Holmes' store. Above Carr's are the offices of Attorney K. L. Coburne.

Adjacent buildings are the furniture store of D. E. Mathers and the gentleman's furnishing store of J. Atchison & Sons, which are in imminent danger. The buildings are among the finest in town.

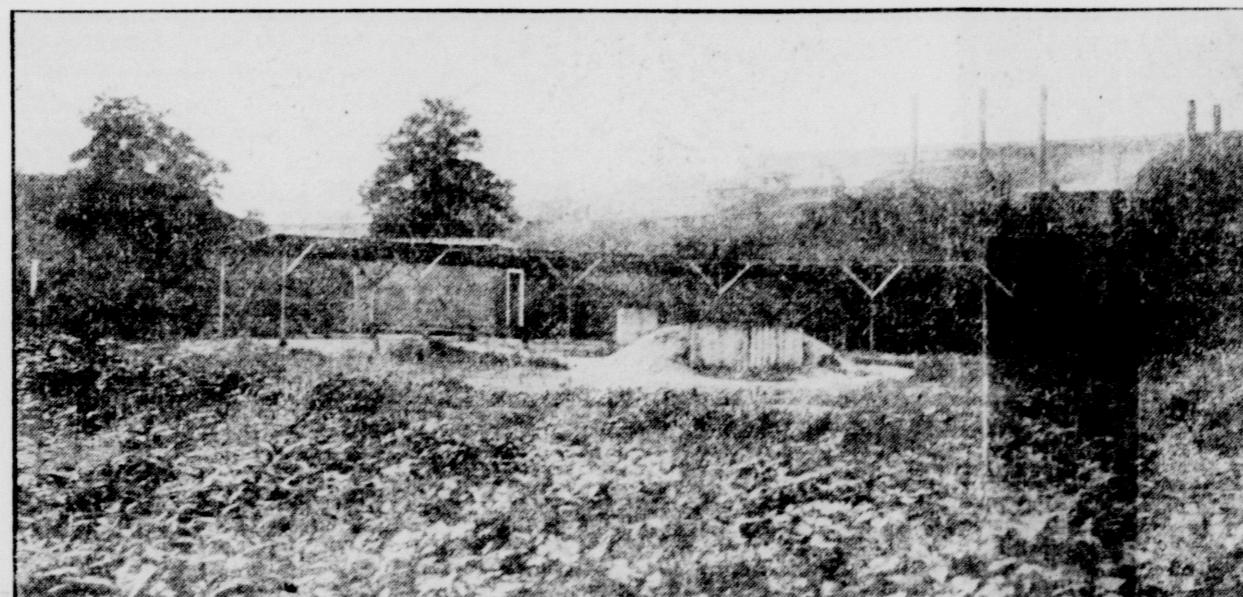

Wedded at Leetonia.

Lisbon, May 7.—(Special)—Harry Blair Price and Pearl Meek, both of East Liverpool, secured a license today and drove to Leetonia, where they will be married by Rev. Mr. Jones.

Golf Club Forming.

A golf club is being formed in the city. Nearly all of the members have been obtained and negotiations are now on for the purchase or rental of a suitable field.

EAST LIVERPOOL GUN CLUB GROUNDS.

The East Liverpool Gun club will hold its fifth annual tournament on the Chester grounds September 10. Arrangements are being made to have the most successful ever held.

ment the stockholder will always have two weeks paid ahead.

It is thought that at least 200 stockholders can be secured, which will result in the full equipment of the store and none will need go elsewhere for necessities. The goods will either be sold at such a profit that dividends can be paid to the stockholders or at cost prices. It is very likely that the latter plan will be adopted. By it the members get the full benefit. There is a probability of the above being adopted, but whether it is or not some plan will be tried in the near future, and if the experiment fails nothing will be lost. The people affected have nothing to lose in the venture and everything to gain.

The grocers and butchers were the subject of conversation for quite a while, and as at previous meetings they received nothing but unfavorable opinions.

Leroy Orr, as chairman of the committee appointed to arrange for the labor day exercises, reported that everything was progressing nicely and that the outlook for a grand demonstration is encouraging. He recommended that council appoint a committee to purchase the hats to be worn upon that day. The following were appointed: Eugene King, A. S. Coleman and George Haile.

Delegate George F. Mackey, of the American Federation of Musicians, addressed council in reply to the question whether there is more than one union of musicians. From his remarks it seems that there is, but council decided that the American Federation of Musicians could only be recognized, the others not being affiliated with the American Federation of Labor.

Council received a cordial invitation from the Carpenters' and Joiners' association to attend the picnic to be given at Rock Springs park on next Saturday. The invitation was extended by Delegate G. B. M. Beatty.

New delegates were qualified as follows: Local Union No. 254, Julia Hickey, Lizzie Fowler and Lulu Shingle; Local Union No. 16, Homer Lampson and Thomas Doherty; Local Union No. 292, H. S. Plankinton.

CONFICTING ORDERS

AND IDEAS AS TO THE LAYING OF SIDEWALKS.

A Tangle Which the City Council Will Be Called on to Straighten.

Several happenings incident to the recent orders of the city council to property owners to pave or repair their sidewalks will have their sequel at the next regular meeting of the city fathers. There seems to be much contention between the contractors and the street committee of council. The contractors are acting in complicity with orders from the property owners, and as a result both are being censured and threatened.

The committee appointed to determine the best plan for starting and operating a market house and a co-operative store made their report. No progress had been made by the market house committee, but those handling the co-operative store question stated that they had held a number of meetings since the last meeting of council and had a dozen or more plans under consideration. The one that they had decided upon as being the most profitable to the patrons is one that is being followed in a few other cities, and it met the approval of council.

According to the plan as explained the store will be backed practically by a stock company, the members of which will be only those affiliated with the Trades and Labor Council. A deposit of \$25 will be required of each stockholder, \$15 of that amount will be used to purchase the needed amount of groceries, etc., to fill the store. The remaining amount will be held back and at the end of two weeks, if that is liquidated, another like amount will be due from the stockholders. The \$10 only applies to those who don't run bills to exceed that amount in two weeks. Those running larger bills will be expected to pay more. The only advantage in the plan is that after having made the first pay-

Trades and Labor Council held an unusually long session last evening, but little business of importance was transacted, the time being devoted mostly to the discussion of several matters which have been before council for some time.

The committee has an idea as to what the grades on the streets are and wants the sidewalks laid so that they will be uniform. Everything would work smoothly if the adjoining property owners would always agree on what the grade is and then have the walk laid to correspond.

One instance illustrates the trouble.

Two men on Fifth street were given an order to pave. Each paved to suit

his notion, regardless of the legal grade.

One of the walks is at least

four inches lower than the other.

A member of the committee objected

yesterday upon making an examination and ordered the contractor to make the sidewalk coincide with that

adjoining. The contractor refused

and states that if he is compelled to

make the change he will fall back on

the city for payment.

Several like cases are reported and

council will be compelled to take

some action on the matter at the next

meeting.

CAR RAN BACKWARD

And Women Passengers Began to Jump Off And Scream.

Pandemonium reigned on an East Liverpool railway street car early last evening when the car, in making the ascent on Washington street, suddenly stopped and started on a backward course down the hill. The electricity evidently ceased charging the trolley wire. As the car started a dozen or more women began to scream and several of them ran in terror to the rear end and jumped to the street.

Before the car stopped, those that had remained sitting saw that there was really no danger and the car was again started up the hill without further trouble.

WORDS AND BLOWS NEXT

Followed by a Lawsuit Before a Justice of the Peace.

EXCITEMENT IN CALCUTTA

In the court of Justice Moore, at Calcutta suit has been entered by James Nepper against Elwin S. Faulk, for \$85 for alleged damage done to the corn field and other gardens of Mr. Nepper by Faulk's sheep. This case is to be heard Aug. 18.

Mr. Faulk is a stepson of Mr. Nepper. That, however, did not prevent the sheep of Faulk eating truck that grew in Nepper's garden. It seemed that Mr. Nepper raised very good corn and other green stuff, and the sheep, learning this, proceeded to help themselves, although it was the intention of Mr. Nepper to sell all his corn and other truck in the market of East Liverpool.

While Mr. Faulk had been filed against him, he having the name of being one of those shrewd farmers, for which Calcutta is noted, told a friend, who is also a farmer named John Givens. Mr. Givens acted as a sort of a viewer, witness, or any other term that would suit the case, and in company with Mr. Faulk went to the green fields of Mr. Nepper to ascertain whether any damage had really been caused by Faulk's sheep. The journey began last Tuesday morning, and within two hours the trip abruptly ended much to the disappointment of Mr. Faulk and his viewer or witness, Mr. Givens.

The journey to the farm was a pleasure. At the farm matters were different. Mr. Nepper saw Faulk and his viewer coming to look the fields over, and this fact made him angry. He got fighting mad. Relationship cut no ice. The idea that Faulk should think that no \$85 worth of damage had been done to his farm and crops made Nepper indignant.

"Now," said Mr. Faulk to Mr. Givens, "I think Nepper says the sheep went in the corn field this way, and that they ate various garden truck in yonder patch. Suppose we see just what damage was done by my sheep."

It was but a short time afterward until Nepper and Faulk and Mr. Givens were face to face. They talked and talked. There were many words used. Some of the people of Calcutta say more than words were used, and that fists were brought into play. It is claimed Mr. Faulk's hat was damaged, and it was a new one at that. After a short time the debate ended, but the talk about it is still going on in Calcutta and vicinity.

Nepper's case against Faulk will be heard soon by Justice Moore. After that more law is expected by the peaceable farmers of Calcutta.

A NOISY ENGINE

Too Much Whistling By the Shifter Is to Be Forbidden.

The attention of Detective James Moore, of the C. & P. railroad, was called to the fact that the engineer and fireman on the pony engine, which is used in switching cars within the city limits, make entirely too much noise with the whistle attached to the engine. Chief Thompson has listened to objections for several weeks from residents living along the railroad and was powerless to prevent it.

Detective Moore promised to have the unnecessary whistling stopped and stated that it has been the result of engine a boy fireman.

BACK TO THE WORKS

Good Prospect That James Penny Will Go There For His Old Offense.

James Penny cannot stand freedom. It seems to be his ambition to rest only behind the bars. Only two weeks ago he was released from the workhouse at Canton, and unless something unforeseen occurs he will be a boarder at that institution tomorrow. Penny was picked up on Broadway last night by Officer Dunn for the same old offense, and was given \$10 and costs or the works by the mayor this morning.

WITH THE WORKMEN IN THE CLAY PLANTS

THE MANUFACTURERS' VIEW.

From what can be learned the manufacturers are in no happy mood over the recent action of the finishers in leaving their positions. The finishers have a trade, all to themselves, and when they stop work it is not long until their action causes other departments in the pottery to stop work. A prominent manufacturer last evening said: "There is not a shop in the city but has a large amount of orders on hand, and some of these orders call for immediate delivery. Ware for these orders, at least in some instances, is now being made in the clay shops and the finishers' act has held the order back. I sometimes think that in some instances the jiggers are themselves to blame for this dispute. Only a short time ago a jiggerman if he would learn of a finisher who was more rapid at her work than the one he was employing would discharge the one working for him and offer the more speedy finisher more money to come and work for him. Then the girl that was laid off, hearing that her sister finisher was receiving more money, reported that fact to her local and the local said she should receive as much as any finisher in the city. It is a fact that the faster a finisher works the more money she receives and the more money the jiggerman makes. The slow finisher is claimed to be a detriment to a fast jiggerman. It is said that the instance is frequent, that when the two weeks' wages of the finisher are about \$30, the wages of the jiggerman, after he has paid his boys, are not much more than \$35. As to the expenses of the finisher for tools, a finisher spends from 75 cents to \$2 a pay for them. If this comes from the wages of a jiggerman who is making but \$35 a pay, his net pay is not very much larger than that of his finisher."

PEORIA LETTER.

The plant here a few days ago shipped a carload of "oatmeals," and the firm is still rushed for more of the same class.

Everything is running smoothly at the plant of the Crown Potteries company in this city, and the prospects

for a continued long run are bright. The clay hands have been compelled to loaf for a few days on account of a shortage of boards, but are working again.

There seems to be a shortage of bisquit kilnmen at this plant, and it is generally understood that the company will increase the force on this bench before long. It is this shortage of workmen that caused a shortage of boards.

Patrick Rafferty, a well known kilnman of East Liverpool, has taken a position on the glaze bench at this shop. He commenced work a few days ago.

Baldy Miller and Dan Roseberry have arrived here from Evansville, looking for employment.

Walter Smith, a popular employee of the local pottery, who had his hand broke several weeks ago, is recovering, and a few days ago physicians took off the plaster cast. He will return to work next Monday.

Mike Fennell, bench boss on the glaze end, who has been suffering with stomach trouble for several weeks, has recovered, and is now able to be at his work.

WHEELING LETTER.

The strike at the Riverside sanitary plant is still on, with no immediate prospects for a settlement. The firm will give in to one part of the dispute, but refuses to reinstate Beswick. The men claim the firm is victimizing Beswick, although no fault can be found with his work. The entire pottery is idle. Yesterday the kilndrawers were compelled to stop work on account of having no ware. So far the firm has failed to ask for a conference with the men, and the men propose to stand firm in their demands.

George Cartridge, who has been employed as a presser at the Riverside, has left this city and has taken a similar position at the plant of the Stenberville pottery.

William Ayers, a well known presser of this city, has given up his bench and in a few days will leave for New Castle, Pa., where he will take a position as presser at the New Castle sanitary shop.

ing potteries are in full operation, and judging from the present indications, these three shops will continue to run until the first of the year at least.

AS TO WHEELING.

The situation at the Riverside sanitary pottery at Wheeling is becoming interesting. A strike has been sanctioned in the clay department, and sympathy is being shown by the girls employed there. Why does the firm refuse to take back the old employee who formerly carried the clay to the pressers? The men are firm in their demand that he be taken back and paid for this work by the firm, in conformity with the agreement recently made between the Brotherhood and the sanitary manufacturers. The foreman asked Beswick to continue as clay furnisher, and upon his refusal to do so, discharged him. He had been doing the work of two positions, and had not been paid by the management. This has caused contention in the pottery for nearly two weeks.

ASKED FOR CONFERENCE.

Although the statement was made officially yesterday that it could not be stated when another conference between the Brotherhood committee and that representing the Western Manufacturers' association would be held, this morning President Hughes said that another joint conference between these committees would be held in the rooms of the Potters' club this evening. It is said from outside sources that this conference was requested by the manufacturers, although this statement could not be verified by any member of the manufacturers' committee this morning. It is intimated that a settlement will be reached at the meeting this evening.

WILL SOON MAKE PIPE.

The plant of the East Ohio Sewer Pipe company, at Irondale, is almost completed, and pipe making will be started in a very few days. The building have all been finished for some time, and the machinery is virtually all installed. Several down-draft kilns have also been built. It is some months since the building of this plant was started, but considering the extent of the undertaking very good progress has been made.

BACK TO WORK.

A. J. Angle, one of the kiln firemen at Laughlin's plants in the East End, has returned to that part of the city after spending several days at his former home at East Palestine. Mr. Angle states that the East Palestine potteries are now in full operation, and the outlook for a good fall run for the employees is very bright. Mr. Angle may remove his family to this city before long.

UPSET ACID.

H. R. Thompson, assistant decorator at Laughlin No. 2, met with an accident a few days ago that is depriving him of the use of his left hand. He was carrying some acid, and the can accidentally upset, spilling some of its contents on his left hand. There was enough to cause a severe burn. He is carrying his arm in a sling, and will not be able to use it for several days.

PRETTY DECORATIONS.

It has been a long time since the local potteries has presented to the trade at large ware that is so handsomely decorated as that of today. A local salesman, who handles nothing but decalomania, said today that his firm was making a specialty of preparing designs especially adapted to pottery, and was presenting something more pleasing than ever.

THEIR NEW CAPS.

The jiggers at their meeting Tuesday night decided to wear caps while in the Labor Day parade. This local will make an especial effort to capture the prize that has been offered to the local that makes the best display of its trade in the parade. A committee now has this matter in hand.

EVANSVILLE SLOW.

Within the past few days letters have been received in this city stating that the pottery at Evansville is running very slowly, and many of the workmen are leaving the city for other pottery towns. The plant is operated by the Crown Pottery company the same firm that is operating at Peoria.

RECOVERED FROM ILLNESS.

Jess Wright, one of the oldest employees of the East End plant of the American Sewer Pipe company, has recovered from his recent attack of quinsy, and yesterday morning resumed his duties as shipping clerk at the yards.

POTTERY PROJECT.

There is considerable interest in the

proposition to build a small pottery plant at New Cumberland. The matter has gotten into the United States Pottery Journal and other papers and some citizens have received letters making inquiries as to what the citizens will do.

TOPPED OUT KILN.

The new decorating kiln at the Wallace & Chetwynd, which has been under course of construction for several days, has been topped out. Work on the small building that will be used as an inclosure for this kiln will commence at once.

RETURNED TO EAST END.

Oscar Kraft, for many years a resident of the East End, well known in all the local potteries, has returned to the East End. He had been in the city but one day when he secured a position in the East End shop.

SETLED.

The strike at the Wellsville China company's plant has been settled and the objectionable foreman of the kiln-drawing department is there no longer.

AMONG THE POTTERIES.

Isaac Bailey, lately from St. Mary's, W. Va., has a position as a pin runner at the Louhan Supply company.

The kilnhands at the Edwin M. Knowles pottery will have to loaf a couple of days on account of getting behind from the finishers' work.

Harry Jenkins, a jiggerman at the Chelsea pottery, New Cumberland, has moved his family to New Cumberland from the East End.

Jack Thompson, a printer at Laughlin No. 2, is visiting Sebring friends.

The potteries find considerable difficulty now in obtaining clay, owing to the crush of freight traffic on the Pennsylvania lines. They used to obtain a car of clay in two weeks, but now arrival is altogether uncertain.

TRADING WAS MOSTLY IDLE.

Market, Yesterday, Continued to Demonstrate Underlying Financial Strength.

New York, Aug. 7.—Yesterday's stock market continued to demonstrate in a negative way the underlying strength of the financial and business situation in the country. Trading was mostly idle. A demand for the Gould southwesterns was the most conspicuous feature of yesterday's trading. The very heavy buying of Texas and Pacific was by the same brokers who have been active in Missouri Pacific for some time past, and the response of other railroads in the group was purely sympathetic. The operations were supposed to be for account of the same pool which has followed the upward movement in these stocks from the start. Hocking Coal made a jump on inspired intuitions that large new interests were to enter the property and expand its field of activity. Hocking Valley was bought on the advantage the bituminous coal trade is enjoying from the paralysis of the anthracite trade.

EXCITING RIDE

Horse Driven By Bert Sebring Runs Off on a Viaduct.

Mr. and Mrs. Bert Sebring, of Sebring, had a thrilling experience and narrow escape in Alliance Monday evening. They were driving south across the viaduct when the horse became frightened at an engine in the railroad yards below. The animal wheeled around in such a manner as to catch the left front wheel of the buggy on one of the iron pillars of the bridge. The spindle was broken off, thus allowing the buggy to topple forward against the horse. This frightened the horse more and it started down the south approach of the viaduct at great speed.

Persons who saw the affair felt sure the occupants of the buggy would be killed. At Ash street Mrs. Sebring was thrown out and rendered unconscious. The horse continued across the street and rounded up against a building. Mrs. Sebring, after remaining at the hotel all night was able to return home Tuesday morning. Mr. Sebring was considerably shaken up and bruised. The horse was cut about the legs, but not seriously. The buggy was badly wrecked.

COUNTY AND NEIGHBORHOOD

Carrie Nation is expected at Youngstown August 25.

Kirby Liber, of Salem, has arrived home from the Philippines, having been around the globe.

The new passenger station, which the Panhandle railroad is to build at Steubenville, will, it is said, cost \$35,000.

William Cahay, aged 26, son of Patrick Cahay, was run down and killed by a Panhandle train at Mingo. He was a well known steel worker.

Mrs. Capitola Sanders, of Steubenville, is searching for her son Ora, aged 16, who wandered from the Gallipolis hospital for epileptics August 1.

John Stratton, aged 29, of Philadelphia, who is visiting at the home of Walter Stratton, at Winona, had his left jaw broken by being kicked by a calf.

Dr. Charles Fawcett, who died recently in Montecello, Ia., was born near Carrollton, and practiced medicine in Lisbon and Salem over 35 years.

At the McFadden mines, near Unionport, William Anderson, colored, shot three men, none fatally, and escaped. He had a grievance against Weightmaster Henry Trushel and deliberately tried to murder him.

Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of the flux" (dysentery), says Mr. T. A. Pinner, a well known merchant of Drummond, Tenn. "I used one small bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used.

THE POPE APPROVES.

Archbishop Ireland's Stand As to Philippine Friars Correct.

SELLING OF LANDS DISCOUNTED.

War Department Has Considered This Feature in Dealing With the Problem—Taft Touched on This Feature Before Philippines Committee.

Rome, Aug. 7.—The vatican has shown much interest in the Associated Press interview with Archbishop Ireland, in St. Paul, on July 22, in which the archbishop said the pope and other Roman authorities were delighted with Governor Taft and with the course of negotiations between him and the vatican. The vatican officials agree that Archbishop Ireland clearly and happily set forth the true spirit of the intercourse between the vatican and the United States.

Washington, Aug. 7.—The war department has known for some time that portions of the friar lands in the Philippines have been disposed of to companies, and all of the recent negotiations conducted by Secretary Root have carefully taken into account any contingencies which might arise through these transfers. The facts were fully communicated to the government here by Governor Taft. The latter also explained this matter of alleged transfer to the senate committee on the Philippines. In the course of his evidence before the committee Governor Taft said in answer to the question whether the friars were in actual possession of the lands:

Hold Majority of the stock.

"Generally, in order to avoid hostilities, they have transferred their titles to companies and retained the majority of the stock."

As to the bona fide nature of the transfers to certain companies, Governor Taft said that he had cross-examined the heads of religious orders. He added:

"I think after you have read the evidence it will become obvious that while it is true that transfers have been made, they have been colorable in this sense—not fraudulent; I do not say that—but they have been colorable in the sense that the transfer made was for the purpose of giving the public the impression that the friars had parted with their titles, and thus facilitating the collection of rents, while in fact the ownership is still retained. That is my information as to the condition of the titles now, in spite of a protest filed by some stockholders with respect to the ownership of some haciendas."

NOT AGAINST CATHOLICS.

Statement as to Administration's Philippine School Policy.

Chicago, Aug. 7.—During the meeting of the convention of the Federation of Catholic Societies yesterday one of the features was the reading of the correspondence between the executive committee of the federation and Secretary Root on the question of education in the Philippines. Resolutions that had been sent to President Roosevelt, charging discrimination in the selection of school teachers for the Philippines, were read, and the response of Secretary Root to the effect that no such discrimination had been made on account of religious belief.

A discussion as to the best course to pursue in the Orient followed. The general tenor of the convention seemed to be that no intentional discrimination against Catholicism had been made by the administration. Particular stress was made by the delegates on the enactment of laws for the islands by which certain hours have been set aside during school session when priests may speak to the pupils on religion.

THIRTEEN PERSONS KILLED.

Twenty-Five Injured in a Railroad Collision, Near Rhodes, Iowa.

Des Moines, Ia., Aug. 7.—It was understood here that in the railroad collision near Rhodes 13 were killed and 25 injured. The dead, so far as ascertained, are Engineers Brannan and Marchess, a fireman, name unknown, who died from injuries, and 10 laborers. Ten of the worst injured arrived here at 12:30 this morning and were taken to a hospital.

TRAIN ROBBER KILLED.

Met Death in Holdup on C. & Q. Highwaymen Got \$2,000.

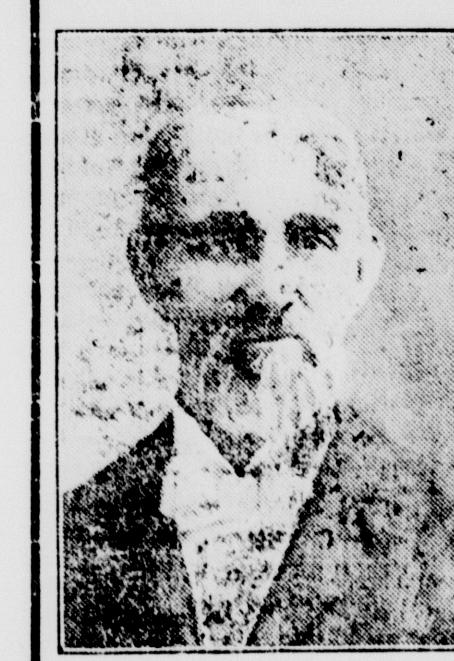

Mt. Carroll, Ills., Aug. 7.—One of the highwaymen who held up the Chicago, Burlington and Quincy passenger train near here Monday night was killed, being shot above the eye and also in the leg. He met death while in the engine, and his body was dumped to the ground by his companions as they sped away. Express Messenger Bly claims to have seen the shooting, but it is thought the man was accidentally killed by his companions. Six sacks of money containing \$2,000 were secured. There were eight robbers.

The vacationists who stay at home are finding golden sunsets, cool breezes and other things that their absent brethren pay high for right at their own doors. East Liverpool as a summer resort has claims superior to many more widely advertised localities. For instance, there are verdur-clad hills, as beautiful as the mountain regions offer; water in abundance, suitable for boating and bathing purposes; springs that afford a better beverage than some that are more famous, besides picnic resorts par excellence and unlimited opportunity for hunting and fishing. Those compelled to stay at home can console themselves with the reflection that it is easy to go farther and fare worse.

Somebody is lying about Bryan or else he is losing his mind. After his repeated refusals, wholly voluntary, to be considered in the light of a presidential candidate, a story comes out of the west that the perpetual talker now says he would accept the nomination if it were tendered him. Of course, he would; but the simon-pure Democrats will see that it is not tendered. Bryan has never been within a million miles of the presidency, but he has been nearer to it than he will ever be again.

The Billy Mason party in Illinois is not likely to be either large or respectable. At all events, it will include very few Republicans. Members of the old party in Illinois have seldom been flappers, and they certainly have no reason to flop to a man who criticised McKinley and did all in his power to make the late president's difficult tasks still more difficult. True Republicans have seen and heard all they want of Mason. Out he goes, and out he stays.

Salem, Toronto, Steubenville, Wheeling, and numerous other neighboring towns have boards of trade which are going after new industries and landing them. East Liverpool, capable of as much enterprise as any or all of them, allows undertakings of vast moment to go to its neighbors, simply because there is no organization to work for its interests. Is this condition to be allowed to continue indefinitely?

A new primary election law should be made a part of the municipal code which the legislature in extra session will enact. A clean, clear-cut primary law is of greater importance to the

cities of Ohio than the question of board or federal plan. The legislature will have plenty of work to do, of course, but it ought not to take its concentrated wisdom long to fix this important matter.

Bandit Tracy died with his boots on, yet he died a most inglorious death. Civilization has progressed fast and far, and the bandit industry is played out, even in the erstwhile wild west. Tracy made his mistake in acting on a different theory.

The Youngstown Democratic organ admits that Kennedy's elections to congress is "probable." What a reputation as a prophet that editor might have got had he lived in Bible times!

A Texas convention took 6,071 ballots to nominate a congressman and then adjourned, its work uncompleted. Harmony is not roosting in Democratic districts this year.

Isn't it curious that no Democrat has thought of the unscarred availability of the Hon. Adlai E. Stevenson, who can run with anybody and on any kind of a platform?

Now if Russell Sage would turn in and imitate Carnegie for a while, there would be no difficulty in convincing many people that the age of miracles is not past.

Free silver failed as an issue, the Democratic party is switching back to free trade, which is as injurious to the people's interests as the former would be.

The Pennsylvania railroad is expected to take 5,000 persons to Atlantic City today. The quota of East Liverpool was more than filled.

The coronation bids fair to come off on schedule time at last, though it won't be remarkable for fuss and feathers.

Roosevelts Witnessed Target Practice

Green Point, N. Y., Aug. 7.—After witnessing an interesting target practice on board the Mayflower, in Block Island sound, yesterday, for which he had offered a prize, President Roosevelt left on the naval yacht Sphylo for Oyster Bay, where he expected to arrive late last night. He and Mrs. Roosevelt were not to leave the Sphylo until this morning.

WELLSVILLE

COMING PRIZE FIGHT

Bunting, the Wellsville Man, Going Through a Rigid Course of Training.

Edward, better known as "Skinny" Bunting, the local lightweight pugilist, has made quite a stir among the local sporting fraternity this week. In his forthcoming contest with Lawrence Lutz, the Beaver Falls boxer, who is making his headquarters in East Liverpool, Bunting is confident of victory. The weight agreed upon, 142½ pounds, called for fasting and vigorous training on Bunting's part, as his weight was about 14 pounds in excess of the limit. By careful training, however, he surprised his friends by tipping the scale at 145 last night. His weight will be brought still lower, and then he will rise to the fighting weight by slow degrees. Stockton and Finley, his trainers, are jubilant. Money is being placed very lightly on the fight. Odds were asked by Bunting's backers, while the Lutz men want even money.

Terry Carman, Lutz's manager, is in Wellsville daily, watching Bunting's progress closely. He stated today that Lutz is not training hard and has no sparring partner nor assistants, not needing either. He says he is a boxer with a record of one defeat, three draws and has whipped nine men. The fight is to be pulled off, Carman says, within five miles of East Liverpool.

Funeral of William Snowden.

A multitude of friends and relatives were present at the Snowden obsequies this afternoon. William Snowden was one of the best known men in Wellsville and was universally respected. Rev. H. W. George, of the university of Wooster, a lifelong friend and associate of Mr. Snowden, conducted the funeral services. Rev. T. V. Milligan assisted. The pall bearers were Dr. J. W. Hammond, Prof. J. I. McDonald, Dr. B. R. Parke, Dr. A. Noble, T. B. Stevenson and J. C. Catlett. Burial was made in Spring Hill cemetery.

Many Excursionists.

Many persons from here took advantage of the excursion to Atlantic City this morning, and when the train pulled out a good sized crowd accompanied it. Among those who went were Albert and Henry Goetz, who will also visit New York and Philadelphia; David Mannist, who will visit in New York; Ed Matthews, who will take a vacation from work at the steel mill, and Misses Nellie Kelley and Eula Pickering.

Persists in Running Away.

A child named Robinson, aged 12, who persists in running away from her home, was brought before the mayor today at the wish of her parents, who are compelled to adopt drastic measures in order to prevent her running off to Pittsburgh. Her sister also appeared and seemed angered by the arrest. A few words from Officer Davis quieted her and she decided it best to return home.

Tearful Children.

Mayor Fogo's office has been besieged all morning with the parents of the youngsters who were arrested and fined for jumping on freights. They come, in most instances, to pay the fine assessed. From conversation it is evident that several of the youths received more punishment at home than at the mayor's office.

To Return From Mexico.

Arthur Thomas received a letter from his brother, who is a clerk in one of the government departments in the city of Mexico. The letter stated that he would be in Wellsville on a visit within the next month.

Talked With Creditors.

J. A. Spencer, son of Contractor Spencer, who recently disappeared, was in the city today and consulted different creditors of his father, seeming greatly mortified at his father's course. Prosecution is threatened by some. Spencer is thought to be not far away.

WELLSVILLE SHORT STORIES.

Mrs. T. L. Apple is visiting friends in New Castle.

Miss Grace Kelley, daughter of Frank Kelley, is sick.

Dr. A. L. Robinson was at New Castle, his old home, today.

Mrs. Samuel Clark and two children are visiting in Cleveland.

John Morris, a brakeman, is sick at his home on Fifteenth street.

Mrs. William Lawson and Bessie Brannan are Pittsburg visitors.

Thomas McCann and John Hannon, of Toronto, were in the city today.

Miss Alice Springer, of Crafton, Pa., who has been the guest of her uncle, Captain John Todd, returned home today.

Mrs. Eva McClemons, of Pittsburgh, is the guest of her father, T. R. Anderson, at the Oak Grove campgrounds.

Mr. and Mrs. George Ashley are in Jamestown, N. Y., visiting friends. They will go to Lake Chautauqua before their return.

W. H. Sheets, roundhouse foreman at the Wellsville shops, is taking a vacation and will not report for duty for several weeks.

Ed Adams, of Commerce street, has been promoted from train caller to clerk, having his desk in the yardmaster's office in the Wellsville shops.

Louis Brookman, a mechanic employed in the air brake room at the railroad shops, has resigned and contemplates locating outside the city.

George Hirst, fireman on shifter 693, is still off duty and his substitute is taking his place. Hirst had his right hand hurt over a week ago, and it has swollen badly.

The new system of engine numbering is being adhered to in the Wellsville shops and each locomotive which leaves the round house after repair will be renumbered and the tender neatly lettered.

Albert McClellan, of Nevada street, who was badly injured in a smashup several weeks ago, is slowly recovering to the surprise of his friends, who feared he would never recover. In a few weeks he will go on duty again.

SHE UNDERSTOOD.

Mr. Tiff Makes a Statement That Causes Trouble.

"Is there anything in the paper?" asked Mrs. Tiff of her husband, who had been monopolizing the Evening Bugle.

"No," replied Mr. Tiff.

"It seems to me that you are taking a long time to read nothing. Suppose you hand it to me. Perhaps I can find something in it."

"Well, here is something which may interest you. A man in Chester refused to pay his wife's funeral expenses, and the undertaker sued him for the money. The court decided that a husband must pay for his wife's burial. What do you think of taking a case like that to court?"

"I should think the mean man ought to be ashamed of himself," declared Mrs. Tiff emphatically.

"So should I," assented Mr. Tiff.

"The idea of a man not wanting to pay for his wife's funeral! I should have thought he would have been perfectly delighted to!"

"John Henry Tiff, what are you saying?" demanded the gentleman's wife.

"Oh, of course I didn't mean that, you know. I mean that he should consider it a sacred duty to give his wife a respectable burial and pay for the same cheerfully."

"I understand perfectly what you are saying, Mr. Tiff. You tell me that you wish I was dead, that you would pay my funeral expenses cheerfully, that you would be perfectly delighted to have the opportunity—perfectly delighted were your very words, John Henry Tiff, and I think you are a wicked man!"

"Oh, now, look here," protested Mr. Tiff, "you know very well what I said wouldn't bear any such construction if you weren't so ready all the time to find occasion to scold me."

"You needn't try to defend yourself, for you can't do it. You said you'd think that a man ought to be delighted to have the chance to pay for his wife's funeral. It's enough to make any self-respecting woman go and commit suicide, so it is. And I'd go to much to your satisfaction. Oh, why, oh, why did I ever think that I could love such a wretch as you?"

At this point Mrs. Tiff put on her hat and walked out of the house.—Tit-Bits.

SOUTH SIDE

NO JURISDICTION

Opinion of Justice Ward in Case of Good vs. Elliott.

The hearing of John Elliott, charged by E. S. Good with swearing falsely in the late liquor case against Good, was called for trial before Squire James Ward, of New Cumberland, in city hall this morning. Elliott was represented by Attorney George Ingram and Good by Attorney O. S. Marshall, of New Cumberland.

Squire Ward granted a continuance in the case until 1 o'clock this afternoon, but intimated to a News Review reporter that he had no jurisdiction in the case, and this would be his decision. His reason for not acting is that neither Squire Johnston or Mayor Shrader is ill, and only under such conditions could a justice outside their district act in cases pending. He says the West Virginia code is very plain on this question. It is probable that a new warrant will be sworn out and the case heard before either Squire Johnston or Mayor Shrader.

Paralyzed.

W. K. McClurg, of New Cumberland, who is aged about 79 years, suffered a paralytic stroke yesterday and his recovery is not expected. He has been a resident of New Cumberland for many years.

Two Deaths in Turkeyfoot.

Two deaths occurred in the Turkeyfoot district this week. A daughter of Mr. and Mrs. Daniel Swearingen died at the asylum at Weston, W. Va., and Miss Sallie Bright, a maiden lady, died Tuesday.

New Cumberland Picnic.

The union Sunday school picnic came in from New Cumberland this morning on a train of 12 coaches. They are enjoying themselves immensely. Many are visiting the potteries in the city.

CHESTER NOTES.

William Johnston, of Chester, is quite ill.

The Columbiana Telephone company is stringing two new wires along Carroll avenue.

Kennedy Irwin has purchased a lot in Lawrenceville and is erecting a fine new residence.

CUPID AT HIS PRANKS.

Beautiful San Francisco Girl to Wed J. D. Spreckels, Jr.

Society folk in San Francisco were much interested in the recent announcement of the engagement of Miss Edith Huntington, daughter of Willard V. Huntington, and John D. Spreckels, Jr. The couple were sent to America in the eighties to receive recognition befitting their accomplishments. Chinese officials have heretofore shown a marked dislike to these students because of their enlightened and progressive views.

Mr. Chen, or Sir Chen, as he is known in England, was one of four parties of Chinese boys who were sent to this country about twenty years ago for the purpose of completing their education. The idea of the Chinese government was to have the boys spend fifteen years in this country, ten in the preparatory schools and the remaining five years in the universities. Before Chen had completed his course, however, the plan was discontinued, and he was ordered home to China.

While Chang was minister to Washington some years ago Chen served as his interpreter during the three years of his incumbency. Later he was secretary of a special mission to Japan. When the jubilee of Queen Victoria was celebrated, he held a similar position in the London embassy.

It was from Liang Chen Tung's connection with the latter mission that he obtained his knighthood and received the title of "sir." Last year when China sent a special mission to Germany to make formal apologies for the killing of Baron von Ketteler Chen was a member of the party. The new minister is about forty years old.

OUTLAW TRACY DEAD

Committed Suicide in a Wheat-field. After Being Badly Wounded.

HAD MADE A DESPERATE FIGHT.

Had Made Desperate Fight—His Aid Was Bad and He Failed to Add to His Long List of Victims—Boy Betrayed Him—Sketch of His Career.

Spokane, Wash., Aug. 7.—Harry Tracy, the outlaw, committed suicide, near Fellows, a station on the Washington Central railroad, about 50 miles west of Spokane, Wednesday night.

After baffling the officers of two states, after a wonderful flight of nearly 400 miles across Oregon and Washington, Tracy was hunted down by four citizens of the little farming town of Creston and a lone deputy sheriff, Sheriff Gardner, and posse arrived in time to guard the wheat field through the night, but the work had already been done.

The posse that will share the reward was made up as follows: C. A. Straub, deputy sheriff; Dr. E. C. Lauter, Maurice Smith, attorney; J. J. Morrison, railway section foreman, and Frank Lillengen. These men, armed to the teeth, set out from Creston Wednesday afternoon about 2 o'clock. They were working on the information of the Gottsch youth, who had been forcibly made the companion of the Oregon convict for over 24 hours at the ranch of L. P. Eddy, on Lake creek, about three miles south from Fellows, a station on the Washington Central railway.

Tracy Fought His Pursuers.

Tracy fought his pursuers, but failed to hit any of them.

He escaped into a wheat field and darkness set in. The wheat field was then surrounded and daylight awaited.

Shortly after Tracy disappeared a shot was heard from the direction of the wheat field. No investigation was made, however, until yesterday morning. As soon as dawn came an entrance was made into the wheat field.

Tracy's dead body was found lying amid the grain, with his face turned toward the sky. His left hand, thrown over his head, held a revolver, which had inflicted the death wound. The thumb of his hand was on the trigger of the pistol. His right hand, thrown across the lower part of his body firmly grasped the barrel of the famous rifle. Death was inflicted by a revolver held close to the forehead. The top of his head was badly shattered.

Two bullet wounds on the left leg showed the cause of the man's despondency. One shot had broken the leg between the ankle and the knee. The other cut the tibial artery, which of itself was sufficient cause for death.

Harry Tracy escaped from the Oregon state penitentiary at Salem on June 9 in company with David Merrill, after killing four men, Frank W. Ferrell, G. B. T. Jones and B. F. Tiffey, guards, and Frank Ingraham, a convict, who tried to prevent his flight. On June 28 Tracy killed Merrill near Payapine, Wash., shooting him from behind, and leaving his body in the forest, where it was found on July 15. On July 3, near Seattle, in fight with a posse, Tracy shot and killed Charles Raymond, a deputy sheriff; E. E. Bresse, a police man, and mortally wounded Neil Rawley, who died on the following day, and wounded Carl Anderson and Louis Fenrite, newspaper reporters.

Committed Many Feats of Daring.

Tracy committed many feats of daring in his flight, in the course of which he eluded various posses when apparently surrounded and held up numerous farmers, whom he forced to furnish food and clothing, and by threats of murdering their families compelled them to cover up his tracks. Perhaps his greatest show of daring was displayed on July 2 at South Bay, near Olympia, when he held up six men and forced four, including Captain Clark, of a large gasoline launch, to embark with him on Puget sound and pilot him up stream for 10 hours.

In 1897 Tracy murdered Valentine Tige, a Colorado cattleman, and William Strong, a boy in the same state. A total reward of \$6,000 was offered for his arrest, Governor McAdoo, of Washington, offering \$2,500 for his capture, dead or alive. The state of Oregon offered \$3,000, and a brother of one of the guards killed at the penitentiary offered \$100.

At the time of his escape Tracy was in prison for burglary, he having been arrested in Portland, Feb. 6, 1899, after an exciting battle with Detective David Weiner. Tracy fired two shots at the detective, wounding him, and then jumped onto an engine with his revolver to the head of the engineer. He ordered the engineer to go ahead at full speed. The conductor stopped the train, however, and seeing that his plan had been frustrated, Tracy jumped from the engine and started to run. Half a dozen shots were fired at the fugitive, one of which took effect behind his ear, and he was captured. A month afterward, while being taken from jail to the court room, he exchanged several shots with the jailer, but was overpowered.

Affairs Of the Diamond

"Mugsy" McGraw the Man of the Hour In Baseball

Mike and Jack O'NEIL

THE leading topic of conversation in baseball circles these days is the New York team and its new captain-manager, "Mugsy" McGraw. To say that a bombshell was thrown into the American camp by McGraw when he demolished the Baltimore organization, taking with him to the Giants many of the Orioles, is putting it mildly. While it was thought for some time that he would jump to the Nationals, his American colleagues had no suspicion that he would countenance the complete smashup of his former nine. Ban R. V. Pierce, Buffalo, N. Y.

"After being engaged for some time to an amateur female troupe," says Mrs. Minnie Tillotson of Potomac Vermillion Co., Ill., Box 120, "I wrote to Dr. R. V. Pierce who at once understood my suffering and advised me to take his 'Favorite Prescription' and 'Golden Medical Discovery,' and after his 'Golden Tablets' and 'Golden Pastries.' After using his medicine eight or nine months I was completely cured."

"I am grateful to Dr. Pierce for his advice and the kind and encouraging letters he wrote to me. I would advise any woman suffering with female disease to consult him. Prompt and respectful attention will be given and good advice received by so good a doctor."

RIVER PIRATES

Towns Down the River Make Many Complaints of Thefts By Shanty Boatmen.

"Just now," said an informant who is thoroughly posted on the movements of thieves and shady characters along this section of the Ohio valley, "Ekeyville and surrounding sections are overrun with shanty boat thieves who have been driven up the river from points below that territory having become entirely too hot for them."

A large number of them are also residing in Ekeyville, and it will not be surprising at any time to hear of cases of petty thieving and robbery in this immediate section. The pilferers had enough experience with railway depots to avoid making any entrance into them, for they are quickly and surely rounded up. They carry on, however, a system of thieving which is annoying to farmers and other residents along the Ohio valley, and especially is this so in regard to iron, brass and anything of that nature saleable as junk which they can dispose of in the large cities. Many of them have wagons and at night tour the country districts, hauling away plunder, which they cache for a time until the search always instituted blows over.

The shanty boat doubtless shelters many honest people and many thieves as well. Ekeyville and Empire have always been hotbeds for these river pirates, and it is urged that the law be strictly enforced to clean them out.

JACK O'NEIL, CATCHER.

Johnson, McGraw's sworn enemy, states that the defection of the ex Oriole has not worried him at all, but those "in the know" are well aware that the American president is considerably disturbed over the situation and fears other serious breaks in his forces, notably in Chicago, where Comiskey has lost few opportunities to show displeasure at certain of Johnson's actions.

There is no denying that the New Yorks have been greatly strengthened by the Baltimore contingent and that they have a royal opportunity to make a good finish. McKinney, the famous "iron man," who ran away two years ago from Ed Hanlon, is a decided acquisition to the pitching department, which during the early part of the season performed worse than the twirling end of the average high school team.

The Much Talked of O'Neils.

One of the interesting features of the season is the fine showing of the O'Neil brothers, the St. Louis battery which has been principally responsible for a majority of the games won by this team.

Mike and Jack, the O'Neil brothers, were unknown to fame a year ago. Now they have a national reputation. Mike as pitcher and Jack as catcher form the strongest battery the St. Louis National league team possesses.

They are college bred youths, and it is only two years ago since both were battling on the grassy sward for their alma mater, Villa Nova university.

The boys bear a marked resemblance to one another. Both are put up on solid lines. Neither is six feet tall, though each butts an inch or two of that figure. The weight of the pitcher is about 175 pounds, the weight of the catcher eight pounds less.

The pitcher was signed by Captain Donovan for the Cardinals last August.

O'Neil had done a little work for an Eastern league team and fared fairly well. All the old Phillips, particularly Douglass, told Donovan that he had made a ten strike when he landed the youngster. To show the boys from Philly that he was just as good as they said he was one of his first feasts after joining the resident crew was to defeat the Quakers.

Jack O'Neil's Career.

John or Jack, as the Cardinals call him, is the catching member of the family. A year ago there wasn't a professional team in the land that would give him a trial. Now every manager in the business would offer the boy a princely sum. And Jack's presence on the team happened by mere chance. With Jack Ryan and Arthur Nichols catching the best of ball, O'Neil was deemed too light of build and too inexperienced by Donovan, so early in May he was served with the regulation ten days notice of release.

While he was sitting on the bench awaiting an offer Ryan and Nichols both received injuries that caused their retirement from the fray. Donovan had no one to work but Jack. The lad went to work with a will and showed right from the jump that he was just as good as either Ryan or Nichols. He caught several games before he was given the chance to double up with his mate.

Mike started the campaign with mis-

erable success. Cincinnati and New York had both driven him off the firing line. With the advent of real warm weather he struck his true gait and soon had all visiting batsmen badly puzzled.

Six Straight Victories.

Paired with his brother, Mike earned six successive sets of brackets. His success their first trip together was remarkable. He won a game at each stand, followed it up by tanning Pittsburgh and finally had his grand record punctured by Cincinnati, the weakest aggregation of players he had battled with in a month.

Mike is a southpaw. He and his brother, two well bred, well groomed and well educated lads, are just now the idols of St. Louis fandom. And as for forming a brother battery, they are the warmest over the Ewings, "Buck" and John, and the Crosses, Monte and Lane, not excepted.

A little story is going the rounds in connection with the name "Joyce," which was assumed by Mike O'Neill last season. It is said that Mike, who was in college, became so fond of the game that he could not keep out of it and deserted his studies to become a baseball pitcher. Not wishing the faculty of the college or his relatives to know just what he was doing, he assumed the name Mike Joyce. Since he has been successful in the major league he is using his right name, but he has been unable to shake off the fictitious name of Joyce.

Colonel Rogers' Law Troubles.

As was expected, the Philadelphia National league club lost its suits against Lajoie, Bernhard and Flick in the United States court at Cleveland. No other result was looked for after the Dallas decision.

What made the matter worse than anything that had gone before in litigation was the contemptuous manner in which the case was treated by Judge Wing. Without even making a show of going into the merits of the cases, as other judges have done, he simply threw the cases out of court for lack of jurisdiction.

The only recourse of the Philadelphia club now is to begin new suits in the Ohio state courts. This the club will do, notwithstanding its previous rebuffs and the slim prospect of success.

When it comes to battling for what he regards as "a principle," Colonel Rogers has the gamiest bulldog skinned to death.

COLLIERIES RUINED,

Mine Inspector Reports Five Useless, In Shenandoah, Pa. Region.

THE LOSS ABOUT \$1,500,000.

Others in Such Condition It Will Take From One to Four Months to Repair Them—A Watchman Murdered Because He Wouldn't Quit Work.

Shenandoah, Pa., Aug. 7.—William Stein, the state mine inspector for the Shenandoah region, yesterday announced that five collieries under his jurisdiction, which have an estimated total value of \$1,500,000, have been rendered useless by reason of having been flooded and have been permanently abandoned by the companies owning them.

Five Could Resume Immediately.

Mr. Stein estimates that out of the 36 collieries in his district only 14 are in a condition for immediate operation if the strike were ended. The others are in such a condition that it would require anywhere from one to four months to clear them of water and make repairs. He said the average time would be about two months.

The abandonment of the five collieries will compel 2,000 mine workers to seek employment in other parts of the region, and they may have trouble finding it if the thousands of men who have left the region during the strike should return. This condition of affairs, the mine inspector says, is a serious matter not only with the companies, but also with the men.

After the strike shall have been ended most of the workmen will have to remain in idleness for another period of time until the collieries are placed in working condition. In the coal fields south or here Mr. Stein said the situation is about as bad.

But in the Wyoming and Lackawanna region the mines are in much better condition. The mine inspector's statement created considerable interest here, as it confirmed the belief of some of the coal company officials that a full resumption of coal mining will not take place this year, and in consequence the tendency of coal prices will be upward rather than downward.

The situation so far as the peace of the Shenandoah region is concerned remained unchanged yesterday.

Murdered Because He Worked.

Winklesbar, Pa., Aug. 7.—Daniel Sweeney, employed as watchman at the Bliss colliery of the Lackawanna coal company, at Nanticoke, was met on the road to Hanover, where he resided, shortly after midnight yesterday morning, by several men, who clubbed him to death. Sweeney was one of the men who refused to strike when the order was given and one night during the latter part of June he was held up by strikers and badly injured. Several arrests were made at that time and his assailants were tried for court. The murdered man told the superintendent of the mine where he was employed that some of the strikers had told him last week that if he was wise he would quit at once. Sweeney said he needed employment, as his family was in want. The next day another delegation of men met him on his way to work and told him that if he did not quit work he would be sorry. Sweeney said these warnings worried him, but he resolved to continue at work.

AGAINST LABOR MEN.

Judge Goff Decided Habeas Corpus Case at Clarksburg, W. Va.

Clarksburg, W. Va., Aug. 7.—Judge Goff yesterday afternoon, in a lengthy opinion, decided the habeas corpus case against the miners and agitators and remanded them to the custody of the marshal and sheriff, and they will be removed to Pittsburgh to serve the balance of their sentences.

The judge said the only question was as to the jurisdiction, and that the Guarantee Trust company, of New York, was entitled to a standing in court, and it was not absolutely necessary for the fuel company to be made a party to the suit. The decision was a great disappointment to the miners, and their counsel say that no other action can be taken at present at least.

CERTAIN RESULTS

Many a East Liverpool Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in East Liverpool. There is plenty of positive proof of this in testimony of citizens, such evidence should convince the most skeptical doubter.

Read the following statement:

Mr. Thomas Laughlin, of 172 Sophia street, engineer, says: "I caught cold and neglected it. It settled in my back and kidneys. Forced me to quit work and almost cost me my life. I could not move without suffering, and often could neither sit, stand or lie for pain. The secretions of the kidneys went wrong and distressed and annoyed me both night and day. I took medicine for ten years but did not get well. When I read of Doan's Kidney Pills I got a box at the W. & W. Pharmacy.

Noticing some improvement by the time I had taken the first half of the box, I continued until I had taken four boxes and my back was all right as well as the urinary trouble. I will substantiate my statement of Doan's Kidney Pills if anyone will come to my house to investigate for themselves.

Harry Watson, aged 21, a draughtsman in the city engineer's office at Wheeling, W. Va., fell through a skylight of the Peabody building and sustained a fatal concussion of the brain.

Frank Murray, in jail at Mansfield, O., confessed that Arthur Leonard, the diamond thief, held to the grand jury in Elyria, was his partner in the robbery of Gus Holstine's safe.

Prof. R. H. McVay, of Washington C. H., was selected superintendent of the Sidney, O., schools, to succeed Prof. M. E. Pard, who goes to Chillicothe. There were 35 applicants.

At Cleveland, O., Mrs. Perry Reinhart was arrested on a charge of bigamy. Reinhart alleges she has an undivorced husband living in Illinois. Mrs. Reinhart was released on bail.

At Elyria, O., Mrs. Perry Reinhart was arrested on a charge of bigamy. Reinhart alleges she has an undivorced husband living in Illinois. Mrs. Reinhart was released on bail.

At Toledo, O., Carl Monchein, aged 5, son of Mr. and Mrs. Charles Monchein, 357 Summer street, was drowned in a cistern.

At Parkersburg, Pa., the borough council has passed an ordinance granting a franchise to the Cennti Construction company to extend its trolley lines from West Chester to Parkersburg by way of Downingtown and Coshocton, Pa.

Mrs. Cora Large, formerly of Bellefontaine, O., and now with the Ohio State Register at Washington, C. H., has secured a divorce from Lawrence Large, of Hot Springs.

Stephen Page, of Freeland, Pa., an agent in the employ of the Atlantic and Pacific Tea company, was robbed at Elizabethtown. He was returning from Hazelton with a supply of tea and coffee and \$10 in cash.

FAMILY REUNION

THE MALEY'S WILL MEET AT THE OLD HOMESTEAD.

Large Numbers Will Go From Here And Wellsville on Saturday.

A reunion of the descendants of Peter and James Maley and sisters, who settled on a section of land in 1838 at Summitville, out the C. & P. main line, will be held Saturday. There are about 40 of the descendants residing in East Liverpool and about 20 at Wellsville, and they number about 125 all told.

The reunion will be held in Morgan's grove near the old homestead, which is now owned in part, some 230 acres, by Mrs. Edwards Collins, a widow, formerly Miss Jane Maley, and Hugh Maley, another descendant. No. 335 westbound passenger on the C. & P. Saturday morning will have a special car attached to take those of the relatives who desire to attend from this city and Wellsville to Summitville. It will be attached to train No. 316 returning in the evening.

The gathering will simply take the form of a basket picnic, and no orator has been secured. The reunions occur annually. There will be dancing, singing and a ball game during the day and other amusements. A stationary platform is in the grove and a suitable orchestra will be provided. The reunion will be attended by only the Maley descendants.

DELIGHTFUL SUPPER

Given Delmonico Club Members, Followed By Bowling Match.

Members of the Delmonico club and invited guests to the number of sixty enjoyed a very delightful supper in the old dining hall at Rock Springs park last evening. This is an annual event given the members by Mrs. Miller, stewardess of the club, and all unite in extending their thanks.

After supper all gathered at the bowling alleys and teams were chosen for a match game. Captain McCurdy's team clinched the honors by winning two of the three games. Most of the ladies present took part and every one returned home tired and happy.

Wheeling Here Tomorrow.

The Wheeling base ball team and the locals will play in West End park tomorrow afternoon. A large crowd is expected to be present and the game will no doubt be one of the warmest of the season. Wheeling defeated McDonald yesterday 3 to 2.

A HORSE KILLED

In a Collision a Pole Was Driven Into the Animal's Body.

A horse belonging to A. Trotter, of East Liverpool, was killed Tuesday night at New Cumberland. Ed Miller, who was driving the animal, was coming up Ridge avenue at a rapid pace, when a team driven by Jack Melvin ran into Miller's team.

The pole of Miller's buggy was driven into the animal's body, and the horse died a few hours after the accident.
